GUARDIAN FLOOR PROTECTION WARRANTY

COMPLETE SATISFACTION GUARANTEE

The following products have a lifetime* warranty:

- EliteGuard
- EliteGuard Logo Inlay
- Prestige Logo Mats
- Printed & Photorealistic Mats
- Platinum Series
- Clean Step Scraper (excluding the Logo Scraper)
- Flex Step
- Safety Chef
- Logo Impressions
- Versa-Lite
- Triple Flex Flow & Scrape
- Free Flow Comfort
- WaterGuard (Inlay & waffle/diamond pattern with rubber border)
- Pro Top

*This warranty is applicable as long as the product is properly maintained and utilized. It does not cover normal wear or improper care.

STANDARD 1-YEAR WARRANTY POLICY

Guardian warrants new products against defects in material and workmanship when used and maintained as instructed. Warranties are void under the following circumstances:

- Improper use, application or cleaning
- Normal wear
- Use of this product other than its intended purpose
- Failure due to lack of proper maintenance
- Products have been altered in any way

Guardian Floor Protection reserves the right for final determination of warranty coverage. The start date of this warranty is the date shipped from the factory. This date is validated by customer purchase order number and Guardian invoice number. The obligation under these warranties are limited to the original user and to the replacement, repair or prorated refund of the product. All items returned for warranty inspection must be labeled clearly with an RMA number, issued by our Customer Service Department at 877-620-3822.

Guardian Floor Protection is proud to offer select products featuring the NFSI "High Traction" certification.

According to the National Safety Council (NSC), falls are the leading cause of accidental death for people of 85 or older. NFSI (National Floor Safety Institute) reports that the annual cost of slip and fall accidents tops \$100 billion dollars each year. NFSI is committed to improving pedestrian safety and in turn reduce the current trend of slip and fall accidents. For a product to gain NFSI certification, it must pass a higher benchmark than what currently exists in the industry. The two steps to NFSI certification are as follows:

Step 1: Laboratory Testing

Once our mats were sent to NFSI, they underwent initial testing with the NFSI UWT (Universal Walkway Tester). The mats were wet tested for Static Coefficient of Friction (SCOF) under NFSI 101A guidelines. After meeting the NFSI standard for slip resistance, they were eligible for Step 2 Testing.

Step 2: Field Testing

A NFSI technician then places our Guardian mats in a "real world application" or test site for a minimum of 30 days. After the 30 days, a member of the NFSI technical test team inspects and prepares the test area for testing the product again with the UWT. If the product meets or exceeds the minimum acceptable value, it will become certified as High Traction. We are proud to say that our mats exceeded the minimum suggested value and are appraised as High Traction!

For more information about NFSI and their safety work and goals, please visit their website at www.nfsi.org.

WHY FLOOR MATS?

IMAGE

- 91% of shoppers select a store because of its appearance. (Progressive Grocer)
- When asked, "What's the first thing you look at when judging cleanliness?" the most popular first response of consumers was "Floors" (42%); "Smell" was the second (14%). (CDI Research 1991)

PROTECTION

- Without entrance matting, 1,500 people can remove 42% of the finish from a floor (3M)
- 80% of the dust, dirt and grime in public building is "tracked in" from the outside (Institute of Industrial Laundries)
- Studies show that one square yard of commercial grade carpeting can accumulate one pound of dirt over a one-week period and up to twice as much during inclement weather. (International Sanitary Supply Association)
- The estimated cost of removing a single pound of dirt from a modern building today can exceed \$500. (International Sanitary Supply Association)
- It is estimated 90% of building maintenance cost is labor. (Cleaning Management)

SAFETY

- 9 million disabling slips and falls with average \$21,000/claim (National Safety Council)
- Average cost to defend slip/fall lawsuit \$50,000 (NFSI)
- 28% of workers miss 31 days or more from same-level slips, trips and falls (Bureau of Labor Statistics)

HEALTH

- 86 billion pounds of dust settle over the U.S. each year. ("All the Real Dirt Dust", Discover Magazine)
- About 10 percent of Americans are allergic to some component of dust. (Dr. Robert Pumbhrey, Washington D.C.)
- The average six-room dwelling takes in 40 pounds of dust in a year. A private home may have between 800,000 and 1,600,000 tiny bits of dust and particulate matter in every cubic inch of air. (TRSA Report "Dust Where We Work")
- A major source of indoor air pollutants is street dust, carried in on shoes and captured in carpeting. ("The Indoor Clean Air Quality Challenge", Spray Technology Magazine)
- American businesses are spending upwards of \$100 billion a year as a result of lost worker productivity due to poor indoor air quality and "Sick Building Syndrome". (Consumer Federal of America)

MAT PLACEMENT GUIDE

DUAL MAT SYSTEM

The best way to keep dirt and moisture from being tracked into your building is to use our dual-mat system at every entranceway: an Outdoor Mat to scrape shoes clean and an Indoor Mat to wipe shoes dry.

EARN UP TO 1 LEED POINT

Using a proper mat system at entryways to reduce dirt, dust, pollen and other particles earns 1 LEED point for your company. The U.S. Green Building Council certifies buildings as "green." Their LEED program is a voluntary, consensus-based national standard for developing high performance, sustainable buildings.

ORDERING LOGO MATS

GETTING YOUR OWN LOGO MAT IS AS EASY AS 1 – 2 – 3!

STEP 1: ARTWORK

We need your logo in order to create electronic files that we can place onto your mat. This can be provided in an electronic version (preferred) in either .jpeg, .tiff or .bmp. We also accept files such as .cdr and .eps. Remember, the higher the resolution the files you provide, the more accurate our designers can be when setting them in our formats necessary to print.

PREFERABLE

Black & white ad slicks
Brochures
Magazine ads
Camera ready artwork

MARGINAL

Color prints
Business cards
Business literature
Letterheads

UNACCEPTABLE

Faxes
Newspaper ads
Yellow Page ads
Photographs
Banners / Flags
Embossed materials
Metallic materials
Emblems

STEP 2: VISUAL REQUEST

Submit your chosen artwork via either our Guardian ordering system (log-on required) or direct with our customer service team. We will provide a visual for approval within 24 hours.

STEP 3: APPROVAL

Once your visual has been approved, you can submit your mat order (again via Guardian or with our customer service team).

53 COLOR PALETTE

No need for paper order forms! Online processing is environmentally friendly.

Pick up the phone and call one of our helpful customer service representatives

PRESTIGE LOGO MAT

Item Listings
PG 47

OUTDOOR MAT COLLECTION

MAT FACT

Outdoor matting is your first line of defense against dirt and moisture. These mats are designed to scrape shoes clean of heavy debris that would otherwise find its way into your facility. Protect the longevity of your floors by removing dirt from foot traffic before it even hits the door.
