100% Satisfaction Guarantee

We design and build our tools to be tougher than the dirt they clean. We stand behind everything we make, 100%.

If for any reason you're not satisfied with an Unger tool, please return it to us within two years of purchase and we'll make it right.

Here's How:

Mail the item back to us at the address listed below along with a completed 100% Satisfaction Guarantee Form.

Unger Enterprises, LLC
Attn: Customer Satisfaction
425 Asylum Street,
Bridgeport, CT 06610

We will replace the item with a comparable item based on style, functionality, and price. Please allow 4-6 weeks for processing. To help ensure fairness to all customers, we do require a receipt in certain situations. Please see our Special Conditions for details.

Special Conditions

To help protect our customers and make sure every return or exchange is dealt with fairly, in certain situations we may either require a receipt or decline a return or exchange, including:

- We can't accept items for return that were not purchased directly from an Unger authorized distributor.
- If an item has a missing label or it has been defaced, we can't accept it for return without a receipt because we can't be certain it was purchased directly from an Unger authorized distributor.
- On rare occasions we may find it necessary to require a receipt for returns and exchanges based on the nature of prior transactions.
- For the safety of our employees, we can't accept items that have been soiled or contaminated until they have been cleaned.
- Normal wear and tear is not covered by the guarantee.

Window Cleaning

At Unger, the window cleaning industry is both where the company started and where we continue to be a world leader. Starting with founder Henry Unger's desire to create a better squeegee, Unger has built a reputation of creating the highest quality, most innovative tools available.

Products such as the HydroPower line of pure water production systems demonstrate that today, and moving forward, quality and innovation remain core values of Unger.

PureWater Cleaning

nLITE HYDROPOWER™

Cleaning with PureWater

Pure water is tap water that has been stripped of naturally occurring minerals. The minerals in the water are measured using total dissolved solids (TDS).

Once the minerals are removed (a process known as deionization), the water dries spot-free leaving surfaces professionally clean without the use of chemical additives.

Deionizing water in a portable and cost effective way can be a challenge. Car washes use pure water systems to rinse a car clean, but these systems are large and not suitable for window cleaning.

The Unger HydroPower systems are designed to be the perfect fit for professional cleaners. Engineered to be portable, easy to operate, and extremely efficient, Unger HydroPower Systems are at the cutting-edge of innovation when it comes to pure water for the cleaning industry.

nLITE® WATERFED POLE SYSTEM

Avoid dangerous ladders with Unger's revolutionary nLite Waterfed Poles! Safely clean upper-story windows from ground level with these strong, lightweight poles that don't compromise on rigidity.

Extension Poles, which include yellow and red visual warnings to prevent unintentional separation, attach easily to Master Poles to reach lengths up to 65'. See why nLite poles are the ultimate in waterfed technology!

The Advantages of Waterfed Poles

Worker Safety – No ladders needed!

For most applications, the dangerous use of ladders is not necessary – this results in safer working conditions for cleaners.

PureWater Cleans Without Chemicals

The use of PureWater eliminates the need for harmful cleaning chemicals. This results in a safer, chemical-free workplace for cleaners and no harmful chemicals destroying our environment. Green Cleaning!

Waterfed Poles Increase ROI Over Lift Rentals

Renting a lift is an expensive recurring cost to get the jobs done. Investment into a HiFlo PureWater System does not incur major additional costs and can be used for years.

Insourcing vs. Outsourcing Your Cleaning Jobs

With inexpensive operating costs, insourcing your cleaning jobs using the HiFlo PureWater Cleaning Systems has a very attractive cost-saving potential.

HydroPower™ PureWater Kits

Pure water is the fastest and most efficient way to clean outdoor glass surfaces. With Unger's cutting-edge HydroPower and nLite technologies, there is a pure water cleaning solution for every facility's needs. HydroPower is the most efficient DI pure water system on the market, far exceeding standard efficiency.

HiFlo nLite poles offer a perfect balance of weight and rigidity and our super-light waterfed brushes make quick work of even the toughest buildup. Take advantage of modern technology to get your windows spotless today!

Expert Tips - How Professionals Scrape

- Check if glass is scratch-resistant and suitable for scraper use
Unsuitable glass surfaces include: plexiglass, crown glass, solar glass, and safety glass (ESG)
- Always follow the manufacturer's instructions
- Perform a scrape test in advance on a small section
- Before starting, check the glass for any damage and report it, if necessary
- Check the blade for damage and change or reverse it
- The surface to be scraped should always be wet
- It is best to use a releasing agent, such as EasyGlide Glass Cleaner
- Scrape in one direction. Never pull the scraper back, as this may cause scratches

Stingray Cleaning Kits

The Unger Stingray Cleans Windows

25% Faster and uses
39% Less Chemicals
than traditional spray and cloth cleaning¹

Cleaning professionals face two key challenges: efficiency and safety. Current tools lead to time-consuming issues, like re-arranging furniture and reaching high or unusually positioned windows. The battery powered Unger Stingray increases productivity and safety by eliminating time spent moving furniture or climbing ladders.

Surface and Floor Care

When cleaning a facility, Safety, Efficiency, and Cleanliness are top priorities. In developing cleaning systems, Unger has taken these priorities and created a line of cleaning systems and tools designed to maximize each.

From the custodian designed RestroomRx system, to the massive pushing capacity of AquaDozer Max, the many small, unique elements that only Unger includes are what set Unger apart in the cleaning industry.

Dual Bucket System

Increase Productivity & Improve Hygiene

The Unger RestroomR_x Bucket System sets the standard for cleaning efficiency and hygiene.

Its many distinctive ergonomic design features enhance worker productivity, reduce injuries, and increased cleaning performance.

- Separate Cleaning Solution from Soiled Rinse Water
- Prevent Cross-Contamination
- Save on Water and Chemicals
- Up to 63% Lighter when Full
- Mounts on all Standard Cleaning Carts
- Casters Removable for Additional Stability
- Two 4-Gallon Capacity Compartments
- Additional Cleaning Tools can be Stored on Front Handle or in Optional Side Bucket

Immerse mop in front compartment for fresh cleaning solution

Wring and rinse soiled mop in rear compartment to release dirt

SmartColor™ Cleaning System

Restrooms
High Bacteria Areas

Speciality Areas
Laboratories
Gymnasiums

Break Rooms
Kitchens
Food Service Areas

General Areas
Low-Risk Bacteria Areas
Offices/Lobbies/Classrooms

The Advantages of Color-Coding:

Improves Training and Communication • Prevents Cross-Contamination

Enhances Building Safety • Deters Chemical Misuse

Simplifies Supply Management • Elevates Employee Performance

Every facility is unique, which is why the Unger SmartColor is the first visual coding system designed to adapt to the specific, and changing, needs of your business. As your building's footprint grows or personnel needs fluctuate, SmartColor will keep your business ahead of all its cleaning demands.

SmartColor achieves its distinct color-coding through interchangeable features and durable metallic decals. This gives you the flexibility to easily re-task tools for different areas or functions as required.

Use the color-coded stickers to identify which products are to be used in which areas of a facility.

Microfiber Flat Mops vs. Cotton String Mops

Black light experiment reveals the advantages of using microfiber flat mops vs. cotton string mops

After cleaning with Unger's Microfiber Mop and Dual Bucket, all soils are captured and removed from the floor

After cleaning with a traditional string mop and single bucket, remaining soil appears neon yellow

Restroom Cart Systems

RESTROOMRx A HIGHER LEVEL OF CLEAN

The best way to clean is with an efficient system, and the Unger RestroomRx is the first janitorial cart developed as a completely coordinated system by cleaning professionals.

Every detail is designed for ergonomics and safety. Tools stay organized and securely fastened in place while moving from job to job.

The Unger RestroomRx streamlined cart systems will enable your custodians to work faster and more productively than ever.

▶ EASY TO MANEUVER

The handrail allows you to maneuver the cart in and out of restroom entrances quicker and easier.

▶ STAY ORGANIZED

Every tool in the system has a designated position on the cart. Tools are always where they need to be, and always clipped on securely.

▶ LARGE STORAGE

With an expanded storage module, you'll substantially limit trips to the supply closet.

▶ SMART DESIGN

The narrow tool tower design allows all tools to remain within the boundaries of the cart. The base of the cart also acts as a drip tray catching excess liquid, so nothing ever drips on restroom or hallway floors.

70% Savings on Chemical and Water Usage!

SAFETY

The Ergo Rail eliminates poor posture. No matter which side of the cart you're on, it can be pushed and pulled with ease.

The handrail allows you to maneuver the cart in and out of restroom entrances quicker and easier.

Patented clip system ensures all tools have an identified position on the cart. Tools are securely in place while you are moving down the hall. No bending or reaching to get tools out/off of the cart.

EFFICIENCY

The Storage Module eliminates restroom complaints. The effort it takes to return to a supply closet to restock supplies can waste more than just time.

With an expanded storage module, you'll substantially limit trips to the supply closet. Even eliminating one trip increases productivity.

The patent pending Narrow Tool Tower design allows all tools to remain within the boundaries of the cart. Since no tools hang over the outside edge of the cart, getting through even tight doorways is easy.

CLEANLINESS

From the Dual Bucket to the Telescopic Dustpan, the tools that comprise the system were developed to deliver optimal productivity and cleaning results.

A patent pending Drip Tray keeps dripping from tools off the floor, and delivers ultimate bucket stability, even when going over curbs or thresholds.

Floor Mopping

Keep floors cleaner and safer than ever with Unger's selection of floor cleaning tools. Choose from a wide selection of microfiber flat mops, pads, and string mops that can handle even the toughest jobs.

To get the most out of a microfiber mop, begin by outlining the space to be cleaned. Then starting in the corner furthest from the exit, walk backwards creating an overlapping "S" motion with the mop. Adjusting the height of the mop to the individual user is important to avoid strain and maintain proper form.

A comprehensive flat mop system makes a significant difference in your facility's health and your floor's appearance. Studies demonstrate that flat mop systems, especially when used with microfiber mop heads, optimize efficiency, enhance floor safety and provide savings in labor and material.

100%
CUSTOMER
SATISFACTION
GUARANTEE

At Unger, we aim to stand apart from the rest thanks to our special "Yes We Can!" service spirit. We love what we do and as proof of that, we promise to deliver a 100% Customer Satisfaction Guarantee on every product and service we offer.

Terms and Conditions: Unger works directly with qualified distributors and established industry buying groups. To qualify as an approved distributor, your company shall already be established with other manufacturers for resale, have warehouse/inventory capacity, and be exempt from paying sales tax. Distributor status subject to Region Manager approval and periodic review. Overdue accounts are subject to a finance fee of 1½% per month on open balances. All prices are F.O.B. Bridgeport, CT and are subject to change without notice. Invoice terms are net 30 days from shipping date. Visa/MasterCard and Discover Card are accepted and are debited the day of order. Payment in US funds only.

US Shipments: UPS Orders over \$900 or LTL Truck orders* over \$1,200 are shipped freight free within the 48 contiguous states. Non qualifying orders will incur freight charges prepaid to invoice.

Broken Case Policy: All products are available in less than one case quantity with the exception of prepackaged items such as: MicroWipes, Replacement Rubber/Blades, Duster Sleeves, and Poles. A 20% broken case surcharge per item will automatically apply.

Quick Delivery: We ship in-stock merchandise within 2 business days, with standard delivery, you can expect your order in just 1-6 days. Special shipping requests subject to additional freight charges such as Next Day, 2nd & 3rd Day fees. Orders with line item(s) exceeding 50 cases can take up to 6 weeks delivery.

Order Qualifications: Minimum order of \$350

Drop Ship: Provided the above minimums are achieved, Unger will drop ship orders directly to end users. The distributor will pay Unger a \$25 fee per drop ship location plus shipping costs.

Claims: Return Goods Authorization (RGA) is required for returning merchandise. The goods must be in new, saleable condition, in original Unger packaging and are subject to a 20% restocking charge. Claims for shortages or damages must be made within 5 days of receipt of goods.

International Shipments: All international orders are shipped duties and taxes UNPAID and the customer is responsible for such fees upon delivery of items. Canadian Shipments: Freight Free-Order minimum is \$1,000 for standard UPS shipments, LTL shipments \$1,500.

Non-Canadian Shipments: Ships to US Freight Forwarder and standard US Shipment minimums apply. US Dollars only.

Notes: Possession of this price list does not constitute an offer to sell. Unger Enterprises is not responsible for delays beyond our control.

**Selected Poles ship by truck only – EZ500, EZ600, ED750, ED900. Minimum of 10 poles required. Use any combination of sizes to reach minimum.*
