Spartan®

Why CompuClean®?

Resource management is the answer to cutting costs and increasing custodial efficiency. CompuClean's integrated management tools can help you to allocate your labor, inventory and equipment resources to maximize savings and productivity in the face of shrinking budgets.

A Partnership Built on Service

CompuClean is owned and developed solely by Spartan Chemical and is only available as a value-added service to Spartan Chemical Company customers. Superior customer service and support are the foundation on which Spartan Chemical was built and CompuClean is no exception. CompuClean clients receive access to industry leading training and support services.
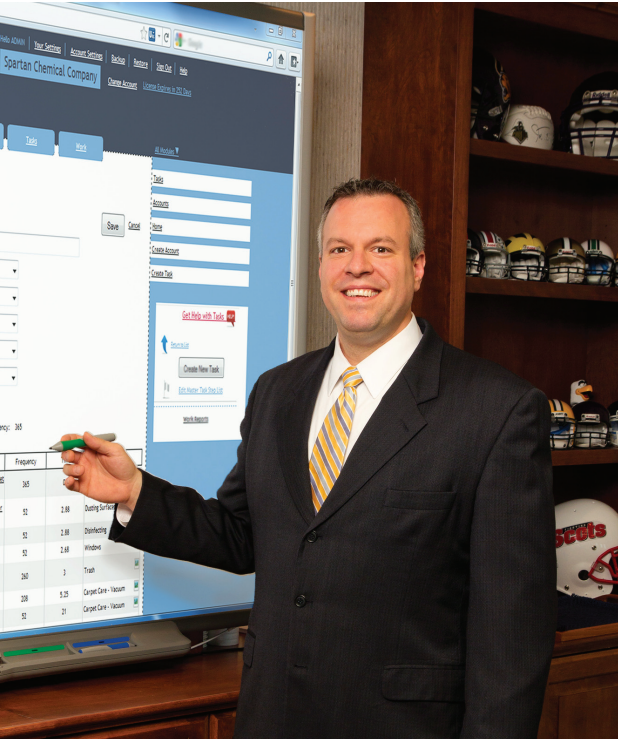

Green Cleaning and CIMS

CompuClean can play a key roll in implementing and maintaining a Green Cleaning program and assist in providing documentation for LEED certification. Proper training, resource management and process documentation are all important components of Green Cleaning. CompuClean provides the tools to do all of this in one program.

CompuClean is also the perfect tool for implementing ISSA's Cleaning Industry Management Standard (CIMS). CompuClean's workloading, quality assurance, inventory and equipment management systems are all compliant with the requirements of the CIMS standard.

CompuManage® Consulting

CompuManage consultants are available nationwide to assist you in learning and implementing CompuClean. Our system-focused approach to implementation includes CompuClean training seminars, interactive online training, access to telephone support and on-site training and implementation services.

Flexibility

CompuClean has been designed to fit the demands of any custodial operation in any market segment. Whether you need to workload a manufacturing facility or manage the inventory at a hospital, CompuClean is the answer. Enjoy the flexibility of a program that allows you to create your own personalized cleaning program, backed by industry standards from ISSA (International Sanitary Supply Association).

Mobility

Utilizing CompuClean's integrated mobile device support gives you the flexibility to maximize productivity while on the move. Access CompuClean on a wide range of mobile platforms including iPhone, iPad, Android 2, Blackberry 6 and Windows Phone 7. For additional information, visit us online at www.compuclean2000.com.

Value

CompuClean is available to Spartan purchasing end users for a modest one time service fee and a commitment to continue purchasing Spartan products. The only additional costs are for optional on-site training services. You get all of the features of CompuClean in one easy to configure installation. Upgrades and training opportunities, as well as access to our CompuManage consulting services are also included.

Key Features, Benefits & Cost Savings

Workloading and Budgeting

- Create a working model for how you clean your space using industry standard ISSA 540 Cleaning Times.
- Track completion of projects and monitor costs for better budgeting
- Track and maintain costs for training of staff
