# REPUBLIC BAG: EXPERI

## We Manufacture Partnerships!

Since 1976, Republic Bag has maintained a position as the innovative leader in polyethylene extruded film products. With a special focus on the varying needs of our customers, our goal continues to be performance and versatility.

The results of a partnership with Republic Bag are:

- Accelerated growth
- A well-trained sales team and inside staff
- Proactive sales support
- Rapid turnaround for orders, quotations and information
- Quality and complete product mix for all markets
- Samples and literature
- Open communication

## Sigma Plastics Group – Our Newest Partner!

In 2004, Republic Bag joined forces with the Sigma Plastics Group / Alpha Industries “Sigma”, whose annual revenue is \$1.4 billion\*. Sigma offered Republic Bag the buying power and corporate strength to be a low cost provider while maintaining premium quality and a regional mentality.

For more details about the Sigma Plastics Group, visit our website at [www.republicbag.com](http://www.republicbag.com) and click on “Alpha-Industries.com.”

## In-Stock, Off-the-Shelf, and Custom Fabrication

- Custom Sizes, Custom Colors, Pack and Labeling
- Flat, Gusseted, or Star Seal
- One Color, One Side, Random Printing
- Healthcare Liners
- Trash Can Liners
- Box Liners
- Mattress Bags
- Compactor Bags
- Pallet Covers
- Cutwork Bags
- FDA Approved Materials
- Bun-rack Covers
- Coreless Rolls
- Coreless Interleaved Rolls
- 1”, 2”, and 3” Cored Rolls
- Vented Bags
- Retail Packaged Products
- Sheeting and Tubing
- Private Label with Distributor Names, Logo, Part Numbers, Bar-Codes and Full Product Disclosure

Average Lead Time is 10-14 days with the flexibility to handle emergency deliveries.

# EXPERIENCE THE DIFFERENCE

## Prompt Service – Put the Republic Team to Work for You!

Performance and versatility in sales, production, shipping and customer service have been our hallmark for more than thirty years. We offer proactive sales support and competitive pricing. We will provide an immediate response to all service issues and assist with emergency delivery requests. Our flexibility in production allows for small runs on custom items. Republic Bag is focused on quality, service and competitive pricing.

Republic bag has a direct sales team and sales broker combinations in all markets to provide the most support for you. Our experienced, professional, efficient, proactive team is ready to assist you with marketing efforts and training. We offer the added advantage of providing samples and professionally designed literature.

Republic Bag is always available for you. Our phones are staffed by a competent customer service team complete with a 24/7 voice mail system. Each employee has their own email for maximum responsiveness. Plus, our internet site – [www.republicbag.com](http://www.republicbag.com) – contains the latest product information and helpful sales tools.

We strive to make certain that your expectations are met. We continually track your order from entry, through production, through quality control, and finally to delivery. As your partner in production, our goal is to provide you quality products and the best service possible.

## Extruded Film Products Designed to Meet Your Specific Needs

Republic Bag offers a complete product line featuring stock and custom HDPE, LDPE, LLDPE, and Premium Liners.

We stock a huge inventory of ready-to-ship items, many of which can be in your hands tomorrow. Our complete “Quick Ship” Program includes both Linear Low Density Polyethylene (LLDPE) and High Density Polyethylene (HDPE), premium material can liners, healthcare liners, food and utility bags, pallet covers, bulk packed, coreless rolls, coreless interleaved rolls, individually folded, and cored rolls.

When off-the-shelf is not the answer, our skilled Republic staff is ready to turn its experience toward your special requirements. Most custom orders require only a ten to fourteen day lead time, with a variety of special adaptations and services available. Custom printing, custom colors, and special sizing are only a few of the configurations we can offer you at competitive prices.

# WESTERN CLASSIC

## Western Classic: Linear Low Density Can Liners

Republic Bag has proudly sold the Western Classic series since our opening in 1976. This virgin LLDPE, reprocessed material, post-consumer recycled blended product is an excellent choice for heavy duty, industrial applications. The black opaque color hides unsightly trash, while the clear liners are great for security reasons. The Star Seal is utilized for proven performance. The Classic Flat Seal also available per request.

- "Industrial-Grade" Can Liners
- Friendly Pack... pull one-at-a-time or pull a convenient bundle
- Proven Star Seal for Excellent Performance, no weak points
- Black opaque liners hide unsightly trash
- Clear liners for contents identification

# HIGH DENSITY LINERS

## High Density Liners

Republic Bag completes our product mix with a large selection of HDPE Can Liners including bulk packed, individually folded, coreless rolls, ProPak, and coreless interleaved rolls. HDPE can liners are widely accepted in the market as the “economy” can liner. Features and benefits include excellent odor and moisture barrier, and very high dart impact and tensile strength. HDPE is an excellent choice for trash application without sharp edges.

**Q:** China or Domestic?

**A:** The answer is complex. If you factor an 8 week + lead time from China, and (often) off-spec product, the difference is often negligible. Our labor costs are relatively low, and we currently purchase raw materials from Asia keeping our pricing competitive with Asia-made products. If you factor in the pollution generated to ship the product halfway around the world, the answer becomes crystal clear: **Domestic.**

- Bulk packed, individually folded, ProPak, Coreless Rolls, and Coreless Interleaved Rolls
- Economy can liners offer source reduction
- Excellent odor and moisture barrier

**Q:** Is High Density cheaper than Low Density/Linear Low?

**A:** Because High Density liners are approximately 25 to 85% less plastic than LDPE/LLDPE liners, the cost per bag is usually lower. However, High Density liners easily tear when punctured, so High Density application often calls for double bagging. If you are double bagging, or cleaning up after a bag failure – the answer may very well be Linear Low/Low Density.

# CLASSIC UTILITY

## Classic Utility: Premium LLDPE Can Liners

The concept behind the Classic Utility series is simple — use the best possible raw materials and focus on the utility of the product rather than the mil thickness.

Classic Utility means source reduction and lower per bag cost without sacrificing performance when compared to traditional, heavy gauge, Western Classic can liners. The Classic Utility product also outperforms HDPE can liners and reduces overall costs by elimination double bagging and/or cleaning after a bag failure.

- **A Dependable Tool – Made from the same premium LLDPE resin every time**
- **Rigid specifications insure standard performance**
- **Star Bottom Seal reduces leakage & improves performance**
- **Premium LLDPE can liners offer the best value, excellent performance, and eliminates the need for double bagging**
- **Convenient dispenser boxes**
- **Three convenient dispensing systems available:**  
**Friendly Pack** – pull one-at-a-time or pull a convenient bundle  
**Propak** – For the ultimate space efficiency  
**Answer Pack** – Convenient coreless rolls

**Q:** How can I save money on can liners?

**A:** There are two very simple methods:

- Verify right size bag in your receptacle. We estimate 75% of the end user market is using liners that is too large for the receptacle.
- Down-gauge. If you are using 1.5 mil, try a Republic Bag 1.2 mil. If you are using a 16 micron and double bagging, you should use a 14 or 12 micron. Republic Bag uses prime-grade virgin material and our quality is superior than most of our competition.

# PREMIUM CAN LINERS

## DOUBLE EAGLE

## Premium: LLDPE Can Liners (Talon, Eagle Talon, TFR)

Republic Bag proudly sells the finest premium can liners available in the industry. This family of products is the pinnacle of performance. These liners are a true heavy weight for jobs that normally require two regular bags. The best choice for heavy duty jobs.

- The pinnacle of performance
- Super strength new technology raw materials
- No splitting when punctured
- A true heavy weight for a job that normally requires two regular bags
- Convenient dispenser boxes
- Two convenient dispensing systems available: **Friendly Pack** – pull one-at-a-time or pull a convenient bundle  
*or*  
**Propak** – For the ultimate efficiency

## Double Eagle

“Double the Quality” by using premium linear low materials. “Double the Value” by avoiding costly bag breaks and inferior performance.

- Ideal for Cash N’ Carry or Retail applications
- Color coded bags for easy application
- Includes new technology premium material for added strength
- Easy-to-use dispenser boxes
- Twist ties included

# Healthcare Liners: Super Tuff LLDPE, High Density Material

Republic Bag offers a complete solution for the healthcare market. We manufacture our healthcare series with new technology premium raw materials to insure the ultimate quality. Our complete offering of LLDPE & HDPE Healthcare liners provides the right liner used in the correct application. Custom colors and sizes available upon request.

Red Printed with: Infectious Waste, Basura Infeciosas, Danger, Peligro, & Biohazard Symbol

Yellow Printed with: Infectious Linen, Sabanas Infeciosas, & Biohazard Symbol

Blue Printed with: Soiled Linen, Sabanas Sucias

- Custom Fabrication Available
- Super strength new technology raw materials
- Complete list of sizes insuring the right bag for the right application
- Color coding eliminates errors
- Convenient dispenser boxes
- Printed and Unprinted

**EV 2.0**  
**ENVIRO-BAG 2.0**

## Enviro-Bag 2.0: 50% P.C.R.!

EV2.0 diverts plastic intended for land-fills. It takes 91% LESS ENERGY to recycle a pound of plastic than a pound of paper. Reusing or recycling one ton of plastic bags saves the equivalent of 462 gallons of oil. The EV 2.0 contains 90% Total Recycled Content and a minimum 50% Post Consumer Recycled Material plus 40% Secondary Recycled. The remaining 10% is New Technology Resins for more strength & source reduction.

Part Number P/N	bag width	bag length	Mil Thickness	Color	Case Pack	Gallon Capacity	Net Weight	Layer/Pallet	Cube
<b>EV 2.0:</b>									
EV2-23-090	24	x 23	0.90	Dark*	475	7-10	15.7	7/84	.59

EV2-48-150	43	x 48	1.50	Dark*	75	56 (Glutton)	15.4	7/84	.59
EV2-48-200	43	x 48	2.00	Dark*	55	56 (Glutton)	15.1	7/84	.59
EV2-KINGCAN	51	x 46	2.00	Dark*	50	KING CAN	15.6	7/84	.59

\*Color may vary due to high Post Consumer Recycled Material Content

NOTE: There is not currently a Green Seal Certified standard for can liners.

- Flat Seal Construction for maximum volume meaning less plastic for proper fit
- XHeavy+ construction may allow for multiple uses of liner
- XHeavy+ construction prevents leakage
- Xheavy+ construction prevents bag failure and environmentally damaging "chemical cleanups"
- Brown Kraft boxes contain PCR with Chlorine Free pulp
- Each bag printed with recycled logo & EV2.0 for heightened customer awareness
- Custom case packs designed for NO corrugated waste

# Food & Utility Bags

Food & Utility Bags from Republic Bag are made with 100% virgin, LLDPE or HDPE resins approved for FDA-USDA regulations. Bun Rack covers are ideal for keeping food warm, fresh, and clean.

## FOOD & UTILITY

Part Number	Dimensions	Mil	Color	Bags per Case
<b>Food and Utility Bags:</b>				
FDA-12-060	8 x 4 x 12	0.6	Clear	1000
FDA-15-110	6.5 x 4.5 x 15	1.1	Clear	1000
FDA-24-100	18 x 24	1.0	Clear	250
FDA-29-100	12 x 8 x 29	1.0	Clear	250
FDA-31-200	24 x 31.5	2.0	Clear	125
FDA-31-300	24 x 31.5	3.0	Clear	125
FDA-35-075	21 x 6 x 35	0.75	Clear	200
FDA-40-200	27 x 40	2.0	Clear	100
FDA-40-350	27 x 40	3.5	Clear	100

Part Number P/N	bag width	bag length	Micron	Color	Count	Gallon Capacity
<b>Bun Rack Covers:</b>						
N528015BP	52 x	80	15	Natural	60	50
N528017BP	52 x	80	17	Natural	60	50

Part Number P/N	bag width	bag length	Duty Rating	Color	Case Pack
<b>Drum Liners:</b>					
RR38583C	38 x	63	400	Clear	50/case
RR38632B	38 x	63	200	Black	100/roll
RR38632C	38 x	63	200	Clear	100/roll
RR38633B	38 x	63	300	Black	75/roll
RR38633C	38 x	63	300	Clear	75/roll
RR38634B	38 x	63	400	Black	50/roll
RR38634C	38 x	63	400	Clear	50/roll
RR386560C	38 x	65	600	Clear	50/roll
RR38583C	38 x	58	300	Clear	50/roll

- Flat Seal for maximum volume
- Heavy Gauge - Industrial Performance
- Flat pack or on rolls

Part Number P/N	bag width	bag length	Duty Rating	Color	Case Pack
<b>Pallet Covers:</b>					
Pallet-73	51x49x	73	3.0	Clear	50/roll
Pallet-85	51x49x	85	3.0	Clear	50/roll
Pallet-85-2	51x49x	85	2.0	Clear	50/roll
Pallet-97	51x49x	97	3.0	Clear	50/roll
Bin-4840	48x40x	100	1.0	Clear	100/roll

- Heavy Gauge - Industrial Performance
- Custom sizes available

# Helpful Formulas

## Mils vs. Microns

- Mil – A unit of measurement in thousandths of an inch. (i.e., .001 = one thousandth of an inch or 1.0 mil). Generally used to designate the thickness of LLDPE products.
- Mic – Short for micron, one thousandth of a millimeter. Generally used to designate the thickness of HDPE products.

## For the EXACT conversion:

- Mils to Microns: (Number of Mils) x 25.4 (i.e., .75 mil = 19 microns).
- Microns to Mils: (Number of Microns) / 25.4 (i.e., 14 microns = .55 mil).

## For the APPROXIMATE strength equivalents:

LLDPE & Blends	HDPE
.4 - .45 mil	6 micron
.6 - .75 mil	8 - 10 micron
.75 - .95 mil	10 - 13 micron
.95 - 1.1 mil	13 - 16 micron
1.1 - 1.5 mil	16 - 18 micron
1.5 - 1.8 mil	16 - 25 micron
Premium Super-Hexene	no comparable equivalent

## Formulas for determining mil thickness, case weights, and sizing:

- LLDPE Net Case Weight  $(W \times L \times \text{Mil}) / 15 = \text{Lbs per 1000}$   
(i.e.,  $24 \times 23 \times .4 / 15 = 14.7 \text{ Lbs/M}$ )
- HDPE Net Case Weight  $(W \times L \times \text{Mic}) / 25.4 / 14.7 = \text{Lbs per 1000}$   
(i.e.,  $24 \times 24 \times 6 / 25.4 / 14.7 = 9.2 \text{ Lbs/M}$ )
- Pounds to Grams: Number of Lbs x 454
- Ounces to Grams: Number of Ounces / 16 x 454
- Computing average gauge from an individual bag:  

$$\text{Gauge} = \frac{\text{Bag Weight} \times 30.5}{\text{Width} / \text{Length} / \text{Density}}$$

(in grams) (.92 for LL)  
(.95 for HD)
- Computing average gauge from a case of bags:  

$$\text{Gauge} = \frac{\text{Net Case Weight} \times 13,840}{\text{Width} / \text{Length} / \text{Density}}$$

(in lbs) (.92 for LL)  
(.95 for HD)
- Computing case weight from weight of one bag:  

$$\text{Case Weight} = \frac{\text{Bag Weight} \times \text{Case Count}}{454}$$

(in lbs) (grams)
- Measuring instructions to determine the proper size bag for any receptacle:  
*For a round receptacle:*  

$$\text{Width of bag required} = \text{Diameter of receptacle} \times 3.14 / 2$$

(Diameter = the distance across the top of the receptacle)

$$\text{Length of bag required} = 1/2 \text{ of the diameter} + \text{height of receptacle} + 4" \text{ to } 6" \text{ for overhang}$$
  
*For a square or rectangle receptacle:*  

$$\text{Width of bag required} = \text{Length of two sides}$$

$$\text{Length of bag required} = 1/2 \text{ the smallest side} + \text{height of receptacle} + 4" \text{ to } 6" \text{ for overhang}$$

# Liner Selection Guide

The following is a table of some of the more popular waste receptacles available on the market along with common size and liner used with each. Find the container that matches yours and note the liner size. Then choose the correct size liner in the strength you need.

RECEPTACLE	DESCRIPTION	MIN. LINER SIZE	RECEPTACLE	DESCRIPTION	MIN. LINER SIZE
	<b>Rectangular Wastebasket</b> Small, 3½ gal. 11⅞" x 8⅞" x 12⅞" Medium, 7 gal. 14⅞" x 10⅞" x 15"h Large, 10 gal. 15⅞" x 11" x 19⅞"h	20 x 21 24 x 23 24 x 31		<b>Brute®</b> Round, 10 gal. 15⅞" dia. x 17⅞"h Round, 20 gal. 19½" dia. x 22⅞"h Round, 32 gal. 22" dia. x 27⅞"h Round, 44 gal. 24" dia. x 31½"h Round, 55 gal. 26⅞" dia. x 33"h Square, 28 gal. 21⅞" sq. x 22⅞"h Square, 40 gal. 23⅞" sq. x 28⅞"h Square, 50 gal. 25" sq. x 32⅞"h	24 x 31 30 x 36 33 x 39 40 x 46 42 x 47 42 x 47 27x24x46 27x24x46
