Elkay® Plastics Co., Inc.

Elkay® Plastics

## THE ELKAY® ADVANTAGE

For over 45 years, Elkay® Plastics has sold exclusively through distribution and that vital partnership has made us the leader in flexible poly packaging. We've worked to make our distributor partners more successful and help them grow their poly bag business by providing outstanding quality, service, support, and much more. Some of the advantages that we provide to our distributors to help them succeed include:

- **SELECTION & AVAILABILITY to meet all your customers' needs.**

We provide immediate availability of our vast array of nearly 3,000 in-stock products. Eight distribution facilities around the US allow us to service 80% of the country with same day or next day delivery, and the remaining territory with two day delivery. With a fill rate of 99%, we can ship your order complete in as little as 3 hours.

- **SERVICE, that makes your job easier.**

Unsurpassed service from Customer Service Representatives who undergo rigorous training and certification gets you the right answers the first time, every time. Whether you need application assistance or product specifications, their in-depth knowledge means you get accurate information quickly, ensuring that you get the right product for your needs.

- **HIGHEST QUALITY, consistent product you can count on.**

Superior product quality and integrity ensure our products are consistently free from defects. Rigorous quality and certification standards such as ISO 9001:2008\*, CFIA and Annual Food Safety Audits ensure our processes are consistent in order to always meet or exceed customer expectations. Our C-TPAT certification strengthens the reliability of our supply chain to help ensure product availability in addition to helping to ensure the safety and security of our employees, business partners and customers. \*Los Angeles, Atlanta and Chicago divisions

- **EXPERTISE, to help your business grow.**

Our nationwide network of field sales consultants act as an extension of your sales force. They help you select the right product for your customers' application, provide product training and assist in the sales process.

- **CUSTOMER-FRIENDLY packaging that saves time and money.**

Many of our bags are shipped in cartons with individually labeled inner packs, ensuring that the products you receive are clean, orderly, and organized every time. Our dispensing system improves your customers' cost control, facilitates inventory management and minimizes waste.

- **LOW PREPAID ORDER MINIMUMS allow you to order on your schedule.**

Your warehouse space is precious. Our competitively priced products have low order minimums so you can order the products you need, in the quantities you need, when you need them.

- **CUSTOM MANUFACTURING when a special bag is required.**

Regardless of whether you need many containers of custom bags delivered directly to your customer or a short run of a few thousand custom printed bags, Elkay has the resources to deliver both quality and value. With the ability to print up to eight colors per side and a broad selection of materials, additives and configurations to choose from, Elkay can make your most elaborate designs a reality.

- **MODERN TECHNOLOGY that makes your life easier.**

Elkay's mobile-friendly website, [www.elkayplastics.com](http://www.elkayplastics.com) provides immediate access to pricing, product information, invoice history, UPS tracking, and order placement, even when you're on the go. It's also the home of our exclusive e-Brochure feature, which allows you to build customized product literature to help you sell more effectively. Elkay University ([www.elkayuniversity.com](http://www.elkayuniversity.com)) is an online training module that helps Distributor Sales Reps learn about poly bags and how they're used in industry-specific product applications for Foodservice and Healthcare to expand sales opportunities in these areas.

### BAG MATERIALS:

**TUF-R® Linear Low Density Polyethylene (LLDPE):** provides superior strength in a lighter gauge than LDPE, resulting in significant cost savings and resource reduction.

**Low Density Polyethylene (LDPE):** Provides excellent protection for everyday use at a great price.

**High Density Polyethylene (HDPE):** bags are used for utility food storage bags and T-Sacks because of their strength and low cost.

**Polypropylene (PP):** is an outstanding food protection properties combined with extraordinary clarity makes these bags ideal for food storage and retail presentation.

**Polypropylene Co-Extruded (PPE):** bags provide excellent performance from the freezer to the microwave, with outstanding clarity for superior product presentation

INTRODUCING

# COOKING AND GRILLING BAGS BY

**Cooking and Grilling Bags by Sirane will help grocers propel sales at their meat and seafood counters to uncharted territory.**

The modern shopper is looking for more than just discounts and coupons from their grocer; they want customized solutions that will save them time, energy, and make their lives easier. But convenience alone isn't enough in today's competitive environment; customers are also looking for delicious, fresh, healthy food. Cooking and BBQ bags give your customer everything they're looking for: fresh, natural ingredients packaged in a convenient, ready-to-cook package that eliminates messy and time-consuming preparation and clean-up.

## COOKING AND BBQ BAGS CAN HELP GROCERS:

- Increase their premium meat and seafood sales
- Differentiate their stores from the competition
- Appeal to specific customer needs
  - Dietary requirements
  - Convenience
  - Health-consciousness

# BBQ AND OVEN BAGS

## Self-Sealing BBQ and Oven Bags

- Features a clear window opening and foil backing that eliminates the need to flip food on the grill
- Food can be cooked on grill, BBQ or in conventional oven

# GOURMET COOKING BAGS

- Can be used in microwave oven or conventional oven for great results every time!
- Steam within the bag cooks food gently and in a very healthy manner.
- Features a clear opening window and natural (brown) or black backing
- Bags are available plain or printed with instructions and recommended cooking times for a variety of proteins and vegetables in both English and Spanish

## Gourmet Cooking Bags (Adhesive Seal)

- Self-sealing fold over tape strips create a leak and odor resistant seal

## Gourmet Cooking Bags (Heat Seal)

- Seal with standard impulse sealer

Whether you're new to Foodservice or preparing for your next sales call, Elkay University can help you be better prepared. Find the products that your customers and prospects use with Elkay University, then use the links to [elkayplastics.com](http://elkayplastics.com). There you can build a customized eBrochure to present to your prospect showing the products they use with their pricing. Get started today at:

## Elkay and the Environment

Elkay® Plastics fully supports measures to increase sustainability and reduce our impact on the environment. In addition to corporate energy, waste and water-saving measures, some that you'll find in our products include:

- Practically all of Elkay's poly bags are recyclable, including those containing d2w® Controlled-Life Additive.\*
- d2w® Controlled-Life Additive is used in many of Elkay's Take Out Bags and T-Shirt Bags to help them break down more quickly if left in the open environment.
- Elkay's TUF-R® LLDPE bags promote source reduction by reducing the amount of resin needed to produce the bags.

You can find out more about the steps that we're taking on our website, [www.elkayplastics.com](http://www.elkayplastics.com).

*\*Except Poly-Nylon Vacuum Pouches*

Some things are forever.  
Your Take Out Bag doesn't have to be one of them.

Elkay Plastics Take Out Bags and T-Shirt Bags made with Symphony Environmental's d2w® Controlled-Life Technology will have a much shorter life than ordinary plastic if exposed to the open environment, but they're FDA compliant for food contact and are recyclable with regular plastic. Elkay and Symphony encourage the recycling of all plastic when possible.

See the products featuring d2w® technology starting on page 13.

*Please dispose of all waste responsibly.*

*\*Timescale depend on environmental factors and may not necessarily be less than a year. Not for composting.*

Visit [www.elkayplastics.com/environment](http://www.elkayplastics.com/environment) to learn more about how we're working to protect the environment.

## SECTION 1 SIDE GUSSET BAGS

### 1.1 SIDE GUSSET UTILITY BAGS

- Meet FDA requirements for use in food applications
- Made from seamless tubing and are bottom sealed for extra strength, with no slits or side seals
- Bags 15" wide and under come in dispenser packs of 100 for cleanliness and convenience
- Any size not listed can be custom made to your specifications. [See page 28 for more information](#)

**TUF-R® BAGS**  
the **STRONG,**  
**ECONOMICAL**  
**CHOICE**

Use a lighter gauge TUF-R® LLDPE bag instead of a heavier gauge LDPE bag for real cost savings.

Compare TUF-R® LLDPE to LDPE and see how much you could save:

	LDPE:	TUF-R® LLDPE:	Potential Cost Savings:
<b>GUSSET BAGS</b>	0.9 - 1.25 mil	6G or 7G Standard	<i>25% or More!</i>
	1.25 - 2 mil	8G Heavy	
<b>FLAT BAGS</b>	1.25 - 1.5 mil	7F Standard	<i>15% or More!</i>
	2 - 3 mil	8F Heavy	
	3 - 4 mil	9F Extra Heavy	

*Savings results may vary. Customers should test and verify the appropriateness of any packaging material. Samples available upon request.*

## SECTION 2 POLYPROPYLENE BAGS

### 2.1 POLYPROPYLENE SEAL TOP BAGS WITH HANG HOLE

- Vapor and moisture barrier extends product shelf-life
- Exceptional clarity for outstanding product presentation
- Hang hole for product display or organization

## The Elkay® ADVANTAGE

### ELKAY PACKAGING

Elkay packaging is second-to-none! Elkay bags are packaged in clearly labeled and bar-coded cartons to help your operation run more efficiently. Most of Elkay's case-packed bags 15 inches wide and under are packaged in individually-labeled inner dispenser packs for convenience, protection and to reduce waste.

The Elkay Way

A Leading Competitor

Ask yourself: Which of these "identical" products would your customer rather package their products in?

## SECTION 5 RECLOSABLE BAGS SEAL TOP

### 5.1 RECLOSABLE BAGS (PINT QUART AND GALLON)

- Zipper closure keeps food fresh and allows easy access to the contents
- Available in standard sizes

\*Made with d2w® Controlled-Life Technology

Some things are forever.  
Your Take Out Bag doesn't have to be one of them.

d2w® additive is a recyclable, FDA compliant additive that can help reduce the life span of poly bags that are exposed to the open environment.

Put this remarkable technology to work for you today and enjoy a cleaner tomorrow.

\* Lifetime depends on environmental factors and may not necessarily be less than a year. Please dispose of all waste responsibly. Not for composting. If all our friends do it, it's a good deal.

### 12.3 TAKE OUT BAGS: WHITE OPAQUE WITH WAVE TOP CARRY HANDLE

# COOKING AND GRILLING BAGS BY

Ready. Chef. Go!® Cooking and Grilling Bags are typically used in the Meat and Seafood Department of a grocery store (although these bags can cook vegetables flawlessly as well). Customers can order their favorite meats, seafood or poultry packaged with their choice of seasonings, spices & sauces, custom packed right there at the counter for them. The bag is then ready to take home and cook to perfection or it can be saved in the fridge to cook later. When the meal is finished, clean-up is a breeze because there are no pots, pans or cutting boards to clean!

Already popular in grocery stores throughout Europe and Australia, Elkay® Plastics is bringing this revolutionary product to the United States as the exclusive U.S supplier for Sirane Cook-In bags.

- Grocery customers can order a ready-to-cook gourmet dish from the Meat and Seafood counter
- Packaged meal is ready to cook or can be refrigerated or frozen for later use
- Bag contains the mess, making clean-up a breeze

## BBQ AND OVEN BAGS

### 23.1 SELF-SEALING BBQ AND OVEN BAGS

- Features a clear window opening and foil backing that eliminates the need to flip food on the grill
- Food can be cooked on grill, BBQ or in conventional oven

ITEM	SIZE	QTY/CASE	LBS/CASE
BBQ0912	8¾ X 11¾	250	9.9
BBQ0916	8¾ X 15¾	250	12.5
BBQ1212	12¼ X 11¾	250	13.1
BBQ1216	12¼ X 15¾	250	16.6

## GOURMET COOKING BAGS

- Can be used in microwave oven or conventional oven for great results every time!
- Steam within the bag cooks food gently and in a very healthy manner.
- Features a clear opening window and natural (brown) or black backing
- Bags are available plain or printed with instructions and recommended cooking times for a variety of proteins and vegetables in both English and Spanish

### 23.2 GOURMET COOKING BAGS (Adhesive Seal)

- Self-sealing fold over tape strips create a leak and odor resistant seal

ITEM	SIZE	DESCRIPTION	QTY /CASE	LBS /CASE

\*Printed bags contain usage instructions, warnings and recommended cooking times for microwave and conventional oven for a variety of proteins and vegetables.

# COOKING AND GRILLING BAGS FAQ

**Q: Grocery stores usually use an adhesive pricing label that is applied to meat and deli items. Is it safe to use the BBQ bags and cooking bags with these stick-on barcode labels?**

**A:** Yes, it is. Most standard paper barcode labels are safe to cook with as long as they are placed on the clear top face of the bags.

**Q: Do the bags leak liquids?**

**A:** The bags are leak-resistant and should not leak if they are sealed properly.

**Q: Do the bags control odor?**

**A:** The bags will lock in any odors if they are sealed properly, which is particularly appealing to customers that are purchasing fish and seafood.

**Q: Can I refrigerate food inside the Cooking and BBQ bags to use later?**

**A:** Yes. You can keep food refrigerated inside the bags to use later as long as the foods remain fresh.

**Q: Can I freeze food inside the Cooking and BBQ bags to use later?**

**A:** Yes, both bags can be frozen with food inside to use later. As you would with any perishable frozen food, be sure to follow the correct defrosting guidelines.

**Q: Are the bags available in different colors?**

**A:** Stock Cooking bags are made with a clear top and a brown or black bottom. Other colors are available as a custom order. The BBQ bags are available only with a clear top and aluminum foil bottom. If you would like to customize your own Cooking bag, please contact the Elkay® Plastics Custom Department (contact information on page 32) for more information on different colors, sizes and printing.

**Q: Is custom printing and labeling available for the Cooking and BBQ bags?**

**A:** Yes, we can accommodate custom printing and labeling. Please contact the Elkay Custom department (contact information on page 32) or your Elkay Sales Consultant for information and pricing.

**Q: Should I pierce the Cooking bags or BBQ bags before I use them?**

**A:** No. The bags will expand during cooking as steam is released and pressure in the bag increases. This is a good thing since it will prevent the bag from sticking to the food and create a perfect cooking environment inside the bag. When the pressure reaches a specific level, steam will gently escape through the adhesive seal to prevent bursting.

**Q: Should I flip the food inside the Cooking bag or BBQ bag to cook both sides evenly?**

**A:** No, do not flip the food! One of the incredible features of both the Cooking and BBQ bags is that they hold and build up heat inside, which cooks both sides of the food evenly and eliminates the need to flip the food.

## COOKING BAGS FAQ

**Q: Where can the cooking bags be used?**

**A:** The Cooking bags can be used in a microwave, conventional oven, or convection oven. They cannot be used on a stove, barbecue or grill.

**Q: What is the recommended cooking temperature range for the cooking bags?**

**A:** Ideal cooking performance is achieved at 350°F. Always preheat a conventional or convection oven to your selected temperature before placing the bag in the oven. This product should never be used at a temperature above 400°F.

**Q: What are the cooking bags made from?**

**A:** The face layer is made from a heat-resistant clear polyester (PET) film while the back layer is made from Glassine (brown or black) paper laminate. The adhesive seal on the self-sealing bag is made from an FDA compliant adhesive with a finger-lift cover. All components are made from 100% virgin materials that are FDA compliant for food contact.

## BBQ BAGS FAQ

**Q: Where can the BBQ bags be used?**

**A:** The BBQ bags can be used in a barbecue, grill, conventional oven, or convection oven. They cannot be used on a stove or in a microwave due to the bag's bottom layer of aluminum foil.

**Q: What is the recommended cooking temperature range for the BBQ bags?**

**A:** Ideal grilling temperatures for this product range between 200°F and 400°F. Do not surpass 450°F when using this bag. The bags should always be used with the foil side directly on the grill with the grill lid kept open.

**Q: Should I close the Barbeque or Grill lid when using the BBQ bags?**

**A:** No. Due to the bags' special material, heat is trapped inside the bag to cook both sides of the food inside evenly. If the Barbeque lid is closed and the heat is set to a high temperature, particularly above 350°F, temperatures inside the grill can rise above 400°F quickly and weaken the PET film material. The lid can be closed when the Barbeque or Grill is set to a lower temperature, but it is not necessary.

**Q: What are the BBQ bags made from?**

**A:** The top layer is made from clear heat-resistant polyester (PET) film. The middle component is made from non-stick siliconized greaseproof paper, while the bottom component is made from aluminum foil (all FDA compliant). The adhesive seal is made from an FDA compliant adhesive with a finger-lift cover.

This **QUICK REFERENCE INDEX** offers a convenient and fast way to identify and locate the most critical bags used in the bakery/food service setting. Because there are many interesting and creative ways to use the large array of bags contained in this catalog, the quick reference index is not intended to represent our complete line. For bags or applications you do not see here, refer to the catalog presentation of bags.

# CUSTOM BAG PROGRAM

For all those times when a stock plastic bag doesn't quite fit perfectly, look to Elkay for the custom solution. Many poly bag manufacturers are severely limited in what types of custom bags they can produce. Elkay, on the other hand, has some of the most extensive custom manufacturing capabilities in the industry. There's an excellent chance that if you or your customer can imagine it, we can make it!

Regardless of whether you need many containers of custom bags delivered directly to your customer or a short run of a few thousand custom printed bags, Elkay has the resources to deliver both quality and value. With the ability to print up to 8 colors per side\*, Elkay can make your most elaborate designs a reality.

## SHORT RUN CUSTOM BAG PROGRAM

Even though Elkay is known for our ability to produce large runs of complex custom bags, many people aren't aware that we also have the ability to produce smaller runs to your exact specifications in as little as two to three weeks, and at a very competitive price. Because our Short Run Custom Bag Program can supply your customers with quantities as low as 50 pounds of product, it can help them control their cash flow by not requiring them to commit to a huge inventory that won't be needed for a while. See the specification table below for short run capabilities:

	Side Weld	Seal Top Reclosable	Bottom Seal
<b>Printing?</b>	One or Two Colors, One Side	One or Two Colors, One Side	No Printing
<b>Sizes Available?</b>	From 2½" to 20" Wide From 3" to 45" Long	2½" to 20" Wide Lengths: 4", 5", 6", 7", 8", 9", 10", 12", 15"	2" to 30" Wide 4" to 30" Long
<b>Mil Thickness?</b>	1.25, 1.5, 2, 3, 4, and 6 mil	2 and 4 mil	1.25, 1.5, 2, 3, 4, and 6 mil
<b>Order Quantity?</b>	50-500 lbs	5,000-50,000 bags	50-500 lbs
<b>Special Features Available?</b>	Printed Bottom Gusset, Wicketed, Stapled Header Pack, Back Flip Closure, Extended Lip Bags	Printed Seal Top Reclosable	

## THE ELKAY® DIFFERENCE

But it's not just about manufacturing capacity. Your Elkay Sales Consultant has the training and experience to help your customer get the best bag for the job. Elkay Sales Consultants regularly work with our distributor customers and the end-user, coordinating with the Elkay Custom Department to find the best solution to tough packaging challenges. Just a few of the variables that are considered when custom designing a bag include size, gauge, material, configuration, printing and, of course, what the bag will be used for. With over 3,000 in stock items and our vast custom manufacturing abilities, Elkay can be your one stop supplier for all of your poly bag needs.

**Contact the Elkay Custom Team at (800) 631-6131 to get started on your custom project today!**

\*8 colors printed per side dependant on bag configuration. Most bags can be printed up to 6 colors per side.

## The Right Partner for YOUR Success!

Elkay Distributors can place orders anytime online at [www.elkayplastics.com](http://www.elkayplastics.com) or call **800-809-8393**.

Each Elkay Branch Location has a fully staffed customer service department ready to serve you.

## Ordering INFORMATION

To view Elkay® Plastics' complete Standard Conditions of Sale, please visit [www.elkayplastics.com/termsandconditions](http://www.elkayplastics.com/termsandconditions).

Elkay® Plastics sells to authorized distributors. For information on how to contact an authorized distributor in your area or to apply to become an Elkay distributor, contact us at **(800) 809-8393** or visit [www.elkayplastics.com](http://www.elkayplastics.com)

## TERMS AND CONDITIONS

**MINIMUM ORDER:** \$100 Net (a \$10 small order charge will be added to orders of less than \$100)

**TERMS:** (On Approved Accounts) 1% 10 days, Net 30.

**SALES TAX:** Sales tax will be charged unless a current sales tax exemption certificate is on file with Elkay.

**DELIVERY:** Freight prepaid on orders of \$2000 or more for a single shipment to the same destination. Orders less than \$2000 are shipped freight prepaid/add or freight collect. UPS shipments are prepaid/add. Additional freight costs that may be incurred for inside deliveries, lift gate, residential deliveries, or sort and segregate activities must be paid by the Buyer.

**INSPECTION:** Buyer should inspect Products as promptly as practical after receipt. However, unless earlier rejected or accepted, the Products shall be deemed to be accepted 5 days after receipt by Buyer.

**RETURNS:** Incorrect shipments will be exchanged or refunded after inspection by Elkay personnel if Elkay is notified within 5 days of receipt of Products. Except for custom orders, other returns may be made within 10 days of receipt and are subject to a standard 15% restocking charge. Returns must be shipped freight prepaid. Buyer must obtain return authorization and shipping instructions from our Customer Care Department before returning Products.

**PRODUCT WARRANTIES:** Products are warranted for 90 days from the date of delivery to be free from defects in material and workmanship and to conform to Elkay's published specifications applicable to such Products. Elkay makes no other warranties, express or implied, including without limitation warranties of merchantability or fitness for a particular purpose. In no event shall Elkay's liability for breach of warranty exceed the price of the Product involved.

**DAMAGED SHIPMENTS:** Although Elkay pallet wraps almost all orders to protect them in shipment, damage in transit occasionally does occur. If your shipment is damaged, write the details on the bill of lading, put the shipment aside and notify the freight carrier. It is the Buyer's responsibility to file a damage claim with the carrier promptly after inspecting the shipment.

**SAMPLES:** As an additional service, samples are provided free of charge for most Products listed in our catalog. However, we reserve the right to limit quantities. Samples may be requested via your Elkay sales representative or online at [www.elkayplastics.com](http://www.elkayplastics.com)

**CUSTOM ORDERS:** Requests for items not found in the catalog can be made through our Custom Manufacturing Department. Refer to page 28 for more information.
