

Hygiene Technology

That Just Keeps On Evolving.

Vectair Family & MVP Range Of Dispensers.

Vectair Systems provide all your aircare and hygiene needs, with two complete & co-ordinated family ranges of cutting edge dispensers & one complete range of harmonized aircare systems.

INNOVATORS IN HYGIENE

Serious about style. Pioneering Performance.

Our ranges offer durable dispensers that have proven to last and perform in a range of environments (Family Range) and a stylish, contemporary and luxurious range of dispensers designed to complement the most exclusive of establishments (MVP Range*) that are ideal for our preferred partners. Included in our ranges are cutting edge aircare sciences such as Vibrating Mesh Technology and Multi-Phasing Fragrance Technology.

Who we are.

Vectair Systems are a leading technological innovator, manufacturer and supplier of aircare and hygiene products in a number of sectors worldwide.

Our North American Headquarters and Distribution Center is located in Memphis, TN allowing us to deliver to all parts of The Americas and Canada.

Expertise & support.

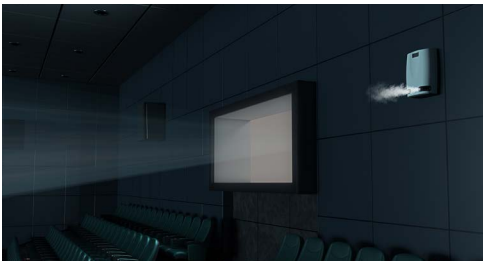

As well as being dispenser manufacturers, we also provide our own range of air freshener refills and other consumables such as passive aircare solutions that are part of the Harmonize Your World range. Through our expertise and support, we are an ideal partner for both your dispensing and consumable needs.

**Our MVP Range is designed for our preferred partners and is our most exclusive of ranges. It contains our newest technology, Vibrating Mesh Technology, which is changing the way the modern aircare dispenser works. If you would like to be part of our preferred partner's network, speak to your regional Vectair Systems representative or contact us directly.*

Vibrating Mesh Technology

Vibrating Mesh Technology is where a mesh/membrane, with 2,000 laser drilled holes, vibrates at the bottom of the reservoir, and thereby pressures out a mist of very fine droplets through the holes. VIBE® and VIBE® PLUS air care dispensers from Vectair Systems are the latest creations and first of their kind to utilize our own patented Vibrating Mesh Technology.

VIBE® Aircare Dispenser with Vibrating Mesh Technology.

VIBE® is an air care dispenser that utilizes our own patented Vibrating Mesh Technology, giving real green and efficiency benefits whilst also providing a great reason for you to change from your existing system with excellent cost in use benefits. VIBE® allows for consistent fragrance from start to finish and is highly effective in areas up to 18,000 cubic feet at ultra-low concentrations for up to 90 days.

- Unlike heavier aerosol droplets which fall within minutes, the VMT micro particles are much smaller and lighter, remaining airborne for many hours. Bespoke fragrances can be created to match user specific needs.
- Environmentally safe. Formulation is VOC exempt and contains no propellants or HFCs.
- Fully programmable dispenser; completely unique with patented and patent pending technology.
- Lower cost in use. One VIBE® cartridge can replace up to three high volume metered aerosol cans OR up to six passive fragrance refills. Superior fragrance delivery for up to 90 days with our standard fragrances.

Dispenser	Color	Part#
VIBE® Aircare Dispenser	White / White	VIBE-MVPWW
VIBE® Aircare Dispenser	White / Chrome	VIBE-MVPWC
VIBE® Aircare Dispenser	Black / Chrome	VIBE-MVPBC
VIBE® Aircare Dispenser	Black / Black	VIBE-MVPBB

VIBE® PLUS Aircare Dispenser with Vibrating Mesh Technology.

Our VIBE® PLUS air care dispenser offers a wholly unique way of controlling odors in large spaces such as a hotel lobby, casino, airport lounge and many more. A supreme exposure area assists with efficiency requirements – one VIBE® PLUS will dispense fragrance to an area of up to 120,000 cubic feet. Micro fragrance particles remain airborne for many hours for superior fragrance delivery.

- Two 17 fl. oz scent cartridges enable a blend of complementary fragrances from one dispenser. Standard fragrances last up to 180 days per one VIBE® PLUS cartridge. Bespoke fragrances can be created to match user specific needs.
- Environmentally safe. Formulation is VOC exempt and contains no propellants or HFCs.
- Create different atmospheres allowing the user to set different ambiances with clever and fully programmable features.
- Battery or mains powered application caters for an HVAC function in air conditioning units for example, or can be simply battery operated.

fragrance a room.

Vectair V-Air® SOLID MVP Dispenser

Vectair V-Air® SOLID Multi-Phasing Passive Deodorizer Dispenser

The multi-award winning Vectair V-Air® SOLID dispenser is an air freshener like no other. It provides up to 60 days fragrance in a completely environmentally friendly manner.

- Different fragrances are used in the center portion (fragrance core) and in the ceramic capsule of the refill allowing for multi-phasing fragrance delivery for up to 60 days. Two dispensers are available – the Family Range dispenser and MVP Range dispenser.
- Contains no propellants, solvents, HFCs and is VOC exempt. Environmentally friendly odor control system using wholly recyclable materials.
- Uses sub-micron fragrance technology delivering fragrance particles typically below 1.0 micron (<1.0µm) which enables fragrance particles to remain in the air for many hours.
- Non-hazardous and contains no liquids. There are no restrictions on the transporting and usage of either the dispenser or refill.

Vectair V-Air® SOLID Multi-Phasing Passive Refills

The multi-award winning Vectair V-Air® SOLID refill cartridges are completely free of any solvents, propellants, HFCs and are VOC exempt – the truly safe solution for your aircare needs.

- The Vectair V-Air® SOLID ceramic capsule is infused with high quality perfumes, then complemented by an integrated internal fragrance core. These combine and diffuse powerful key fragrance notes that are subtly different.
- Vectair V-Air® SOLID contains no liquids so won't spill or leak, even if it is knocked over.
- One Vectair V-Air® SOLID refill provides up to 60 days fragrance delivery to areas up to 6,000ft³.
- Part of the 'Harmonize Your World' range of products – synchronized scents across differing aircare products, removing the fragrance clash in interior environments with 5 fresh fragrances; Apple Orchard, Citrus Mango, Cool Mint, Cucumber Melon and Ocean Spray.

Five Powerful Fragrances.

Available across three fantastic products.

Vectair V-Screen® Urinal Screens

Vectair V-Screen® urinal screens offer an effective method of keeping drains and urinals free flowing, avoiding expensive drain blockages and keeping the restroom smelling fresh for up to 30 days.

- Save money with no more drain blockages - unique web design prevents even the smallest debris from falling into the urinal trap. Innovative angled anti-splash texture keeps urinal area clean.
- Incorporated within the Vectair V-Screen® is a malodor eliminating substance which has the ability to deodorize smells that may exist within the urinal for up to 30 days.
- Unique service handle means quick and easy replacement. Large service glove supplied with each screen means hygienic and safe installation and disposal.
- **Part of the 'Harmonize Your World' range of products** – synchronized scents across differing aircare products, removing the fragrance clash in interior environments with 5 fresh fragrances; Apple Orchard, Citrus Mango, Cool Mint, Cucumber Melon and Ocean Spray.

Vectair Airoma® & Vectair Micro Airoma® Automatic Air Freshener Dispenser

With a sleek design, Vectair Airoma® and Vectair Micro Airoma® dispensers work in a variety of locations with flexible and easy to use programming options. Bad odors are kept at bay with small bursts of fragrance at specific, automatic intervals.

- Fully programmable dispensers allowing you a choice of a number of refills per year; 6, 8, or 12 hour operation; choice of start and end times; days off selection feature; choice of days of operation (5, 6, or 7). Weekend On/Off option is also available. A Quick programming button is also available allowing for a 30 or 90 day operation.
- Two dispensers available – the Family Range dispenser (available in white & chrome) and the MVP Range dispenser (available in white, white & chrome, black and black & chrome).
- Provides a patented "I.P.E.™" facility enabling users to program a period per day of enhanced fragrance delivery and a patented automatic reset button is available when a fragrance refill is replaced.
- Variety of long lasting micro and standard 3000/9000 fragrances available for coverage in areas up to 6,000ft³. All refills are compliant with VOC and California CARB regulations.
