High-Traffic OptiCore® Dispensing

## Revolution® 80300

The Revolution® high-capacity dispensing system is designed to minimize maintenance and maximize cost savings for high-traffic areas. With its revolving design and our patented OptiCore® tissue, the Revolution® ensures that a roll is completely depleted before the dispenser will advance to the next roll, eliminating waste. Capacity for three full rolls of tissue allows for longer periods between maintenance. The Revolution® features a locking cover to prevent product pilferage and is available in five color choices.
