Lamp Featured above #DL329

## Free Table Lamps

**DINE-AGLOW DIABLO™ Food Service Fuels** is the only manufacture that offers **FREE TABLE LAMPS** to restaurants and catering businesses all year long. No one else in the industry can make this claim! No special limited time offers, you can get your lamps for free anytime!

It's simple!

There are no limitations. You can choose any lamp from our large selection of decorative table lamps. Shop our online catalog and purchase the lamps you want. We will immediately ship your selections directly to you.

Next, purchase Dine-Aglow fuel from your local distributor or contact your local Dine-Aglow Diablo sales representative at 1-800-LAMP-LTD. On every case of DF10, DF15 and DF305 authorized Dine-Aglow liquid wax lamp fuel will be a pre-printed "lamp voucher". Simply mail the authorized "lamp voucher" in and we will reimburse you up to the full value of your lamp purchase\*.

**ORDER ONLINE NOW**

## Effects of Decorative Table Lighting

**DINE-AGLOW DIABLO™ Food Service Fuels** offers a decorative table lighting option that is the most economical and convenient form of table illumination throughout the global food service industry. Dine-Aglow is the only Liquid Wax system to offer a **true burn time guarantee** as well as an on going **free lamp program**. We all know that there are many options regarding table illumination. Nothing provides the long term positive effects as Dine-Aglow Decorative Table Lighting. Studies indicate a table lamp with a live flame increases comfort and enhances the overall dinning experience for your patrons. Experts agree that no dining room can do without some sort of candlelight. Everyone looks and feels better in candlelight and there is no substitute that can imitate the beauty of the natural flame of a candle. Flameless candles try to imitate natural candle light but fall short, Dine-Aglow disposable liquid wax placed into a decorative table lamp creates professional ambiance.

A Dine-Aglow lamp ensures safety, quality and the most economical liquid wax product on the market. Dine-Aglow Decorative Table Lighting is a silent asset and the easiest and most economical investment to enhance any decor.

# Dine-Aglow Table Lighting

## Dine-Aglow Guarantee

**DINE-AGLOW DIABLO™ Food Service Fuels** invented and pioneered the first disposable liquid wax lamp fuel cartridge system to the food service and hospitality industry in 1976. The introduction of Dine-Aglow revolutionized the table lighting industry by providing a form of portion control, yield, and cost per burn hour. As plastics improved, in 1980 Dine-Aglow introduced the first decorative fuel cartridge made from innovative plastics of the time, nowadays known as PVC.

Since day one, we have maintained stringent quality control procedures in every step of the manufacturing process to ensure consistently high quality lamp fuel. Made in the USA, all Dine-Aglow lamp fuels are designed and engineered for optimum use and efficient table illumination.

Today Dine-Aglow offers the widest selection of quality Liquid Wax Lamp Fuel with over 16 different fuel sizes and all are **guaranteed to perform as advertised**. Each product carries decades of manufacturing experience and reliability and is guaranteed to perform as advertised. Dine-Aglow is the only manufacturer to offer a **True Burn Time Guarantee\* on all Dine-Aglow Liquid Wax Lamp fuel**.

## TRUE BURN TIME GUARANTEE

**DINE-AGLOW DIABLO™ Food Service Fuels**, as the inventors of Dine-Aglow Liquid Wax Lamp Fuel (1976), we continue to demand the highest quality standards and performance for all products we manufacture. We test our products as well as our competitor's regularly and in detail. We conduct these routine burn tests to ensure our product performs to the high quality standards we expect and you deserve.

By testing of our competitor's cartridges we know some competitors fail to meet the same quality standards we expect of ourselves. They know your schedule is most demanding and do not have the time. Some competitor's cartridges burn 20% less than they advertised. If you take the time and make a simple burn test, you could save 20% or more annually!

- **Product is 100% Recyclable**
- **Odorless and Clean Burning**
- **100% Combustion Guarantee**
- **Consistent Flame Height**
- **Save Time and Money**
- **True Burn Time Guarantee**

# Butane Fuel

## Butane Cooking Fuel

**DINE-AGLOW DIABLO™ Food Service Fuels** offers disposable butane cooking fuel canisters that are used in portable butane stoves. We also carry the butane stoves which are often used in hotels and by caterers for omelet or fresh pasta stations. These portable stoves make it easy for chefs to provide freshly cooked, hot food anywhere. Dine-Aglow Diablo also offers the Flame Tamer lighter. The Flame Tamer is the ultimate heavy duty utility lighter with extended reach and child resistant features.

# Diablo MAX Wick Chafing Fuel

**DIABLO MAX WICK CHAFING FUEL** is the hottest chafing fuel in the world. Diablo MAX heats faster and more efficiently than any other wick or gel fuel available. Used where high heat applications are necessary. Perfect for banquet or catering carts and chafing dishes. Diablo's patented wick design heats faster and more efficiently than an other fuel in its class. Diablo reaches optimum temperature faster and maintains optimum temperature longer than the industry leader. Available in 2-4-6 hour burn times. Diablo Max is a perfect replacement for gel chafing fuels.

## DIABLO MAX vs STERNO®

# Diablo Wick Chafing Fuel

**GUARANTEED TO  
PERFORM AS ADVERTISED**

**DINE-AGLOW DIABLO™ Food Service Fuels**, manufactures Diablo Chafing Fuel products, offering a comprehensive product line that is the number one rival to the Sterno® brand. Whatever burn time and heat is most efficient for your operation Diablo has a product at a more competitive price.

Diablo Chafing Fuel products have a U.S. Patented wick and burner assembly. This patented heat source makes it possible for Diablo to regularly burn hotter, longer and perform more efficiently than any other type of wick chafing fuel available on the market. For over 20 years, American made Diablo Chafing Fuel has been safely heating chafing dishes and hot boxes around the world.

Every Diablo product is tested to ensure quality and 100% combustion. Every can of Diablo comes with something that no one else in the industry offers, a performance guarantee! **Diablo Chafing and Cooking Fuels are guaranteed to perform as advertised\*.**

# Diablo Wick Chafing Fuel

## NEW PRODUCT - Stem Wick Chafing Fuel

**DINE-AGLOW DIABLO™ Food Service Fuels** now produces Diablo Stem Wick Chafing Fuel and Diablo Post Wick Chafing Fuel. Both of these products have a burn time of approximately 6 hours and have the convenient "pop-on" and "pop-off" plastic top. The Diablo Stem Wick product has a slightly higher heat output than the Post Wick product. These products have been engineered for maximum performance and offer a 100% product match guarantee to Sterno® or Handy Fuel® or any other stem wick product on the market. Guaranteed to perform as advertised, this new product is quickly becoming our number one selling product! Our customers tell us that it outperforms all other brands. They also say it doesn't leak like other brands and it maintains the advertised temperature for the duration of the product.

**DIABLO PRODUCTS OUT PERFORM THE COMPETITION AND COST LESS**

## Traditional Solid Wax Candles

**DINE-AGLOW DIABLO™ Food Service Fuels** provides a wide variety of traditional solid wax candles for all types of restaurant and catering needs. For centuries, wax candles have been used as an added touch of ambiance at restaurants or special events and ceremonies of all kinds. Wax candles are perfect for any situation whether you need long or short burn times, Dine-Aglow always has an option available that is a perfect fit.

Our solid wax candles are used to create a touch of ambiance in restaurants and in large catering rooms for events like weddings and bar mitzvahs. Unscented pillar candles are one of the most popular choices for restaurants and wedding centerpieces. Our solid wax pillar and taper candles are created with a hand dipped process that results in smooth, drip-less, clean burning candles.

## MANUFACTURING PRODUCTS FOR OVER 50 YEARS

**DINE-AGLOW DIABLO™ Food Service Fuels** is the inventor, manufacturer, designer and developer of the original table lighting oil lamp system with patented disposable fuel cartridges that have been a staple in the food service and hospitality industry since 1976. Today DINE-AGLOW DIABLO™ Food Service Fuels manufactures a complete and comprehensive chafing fuel product line as well as the disposable liquid wax fuel cartridges. Our chafing fuels offers a complete heating solution that is safer and more efficient method of heating chafing dishes and hot boxes. Diablo Chafing Fuels reach optimum temperature faster and maintain optimum temperature longer than our competitors' products.

Our modern manufacturing plant is located thirty miles West of Philadelphia in Phoenixville, PA. We have been in business for more than 50 years. Our plant in Phoenixville, Pennsylvania utilizes over 85,000 square feet and houses our advanced manufacturing equipment, warehouse and office space. In this space we manufacture, design, engineer and develop high volume products for the food service industry. We maintain stringent quality control procedures in every step of our manufacturing processes to ensure consistently superior products that always perform exactly how you expect them to. Every one of our products carries decades of manufacturing experience, knowledge and reliability as well as a guarantee to perform as advertised.
