FLOOR CARE**

EDIC... ON THE MOVE

Our company was founded in 1975 with the goal of designing and developing the most innovative, productive and durable carpet care equipment and cleaning systems on the market. That vision holds true today as EDIC continues to expand with new product lines, patented innovations, accessories, and the support of a knowledgeable staff trained first and foremost in customer service. We thank you for your interest in our products and look forward to a successful new or continuing business relationship with you.

ENDEAVOR

The all-new Endeavor is a high-performance, dual-vac, multi-purpose extractor engineered to help you clean more efficiently than ever. It has a number of breakthrough features, starting with an innovative design that allows one operator to load or unload the unit into a truck or van without a ramp. The key to this design is a set of casters mounted up near the handle complemented by ramps built right into the mold, so you can literally roll the machine into your vehicle. It also has an auto-fill, auto-dump design which eliminates workflow interruption. For power matched by versatility, the dual-vac Endeavor has the most versatile dual-pump system on the market, allowing you to clean upholstery, carpet or hard floor surfaces. It can be used as a 250 psi heated carpet extractor or a 1200 psi tile and grout machine without heat. When it comes time for routine maintenance, you'll really appreciate the remarkably well-organized and uncluttered layout of its interior components. That means easy access for no-hassle servicing. Its long list of thoughtfully designed features includes a spinner/wand holder to save you a trip to your vehicle, recessed power cord receptacles, dual-wheeled casters for easy maneuverability, a low easy-pour solution tank opening, a 250 psi pump that can be adjusted down to as low 20 psi for upholstery cleaning, a double-wall motor compartment for quiet operation, along with an overall design that places the weight of the machine over the back wheels to give you good leverage to turn, transport and load the Endeavor with ease!

SPECIFICATIONS

Capacity - 13 Gallon

Tank Construction - Rotationally Molded Polyethylene

Tile & Grout Pump - 1200 PSI, Adjustable, Self-priming

Carpet Pump - 250 PSI, Adjustable

Vacuum Motors - Dual 2-Stage, parallel

CFM - 200

Heater - 2000W Internal

Rear Wheels - 12"

Casters - 4" Dual-wheel

Auto Fill - Float Style

Auto Dump - 3.5 GPM

Intake - 1.5" Cool Cuffs

Power Cord - Dual 50' Detachable

Dimensions - 22.5"W x 33"L x 42.5"H

Weight - 175 lbs

WARRANTY

Industry-leading limited lifetime warranty. 2 years on parts and labor, lifetime on the housing

MODELS

9000I Multi-purpose extractor, 200CFM, 1200 PSI (adj.) / 250 PSI (adj.)
Machine only, all tools sold separately.

FEATURES

- Multi-purpose extractor that can clean both hard surface & carpet.
- Easy one-person loading and unloading. Handle mounted casters and dolly style weight distribution eliminates the need for a ramp!
- 5 gallon bucket fits on the recovery lid to reduce trips to and from the vehicle.
- Dual-wheel casters provide excellent maneuverability.
- 12" non-marking, soft rear wheels protect fittings from being damaged during transport.
- Combination wand / spinner holder on the front of the machine for easy transport or storage.
- Conveniently located switches and controls, along with a built-in circuit locator.

OPTIONAL ACCESSORIES

1200REV	Revolution 12" hard surface tool
2540AC-HPC	25' hose set with cool cuff
9540AC-AD	Auto-fill / auto-dump hose assembly
1034ACH	12" Dual-jet stainless steel carpet wand
1039AC	Stainless steel detailer tool
9000AC	Spray gun, touch-less bathroom cleaning tool

REVOLUTION

The all-new Revolution is a tile and grout-cleaning tool that provides remarkably smooth operation, gliding easily over the floor for less operator fatigue. It has a lightweight design – only 13 lbs! – yet it’s engineered for outstanding durability. It works on uneven surfaces like grouted tile or smooth surfaces such as concrete, and can be used with truckmounts or portables. The Revolution’s handle folds to 180 degrees so you can clean under a counter or overhang as low as 6 inches. For exceptionally convenient operation, it has a 90-degree inlet swivel that rotates 360 degrees, which always keeps the hose out of the way even when you’re cleaning alongside a wall. It’s also loaded with innovative features designed to help you clean more quickly and efficiently, including: An inline filter that catches dirt before it has a chance to clog tips – it works great even with machines that don’t have good filtration. An easy-pull trigger with safety. Recovery hoses located in the center of the head for better suction, allowing you to clean along edges without hitting hoses. Comfortable and ergonomic hand grips. A conveniently located vacuum relief mounted in the handle so you can easily adjust air flow without bending over. A stainless steel handle for long-term durability. A high quality ceramic swivel that’s repairable. And a T-style handle that allows side- to-side as well as front-to-back operation.

FEATURES

- 90-degree inlet swivel rotates 360 degrees – always keeping the hose out of the way even when cleaning alongside a wall.
- Comfortable and ergonomic hand grips.
- Inline filter catches dirt before it has a chance to clog tips – works great even with machines that don’t have good filtration.
- Easy pull trigger with safety.
- Conveniently located vacuum relief is mounted in the handle so you can easily adjust air flow without bending over.
- Stainless steel handle.
- Recovery hoses located in the center of the head for better suction – allowing you to clean along edges without hitting hoses.
- Highest quality ceramic swivel is repairable.

FIVESTAR

The amazing FiveStar is a small, self-contained unit with powerful brush agitation to clean carpets, hard floors and grouted tile. It weighs only 40 pounds so it's light enough for anyone to handle, plus the compact body design and fold-down handle make it a breeze to transport and store. Remove two screws and the machine opens like a clamshell for fast service. The FiveStar is small enough to clean tight spaces and corners yet powerful enough to perform well in any commercial setting. A revolutionary bladder design allows you to fill and empty out of the same bucket and eliminates the need to pour solution into the machine. Simply fill the bucket, set it on the machine, close the lid and begin cleaning. No more spills or mess!

Fold-down handle for easy storage and transport

SPECIFICATIONS

Solution Tank	3 gallon
Lift-off Recovery Tank	3 gallon

701PS	7-gallon Polaris/17" wide/100 psi

POLARIS 801PS, 1201PS

For wide open spaces where productivity is the bottom line, the 800 and 1200 models clean quickly and efficiently. These larger self-contained units come equipped with dual vacuums to more thoroughly clean and dry carpets. The Polaris has a built-in silencer so you can clean without interrupting the workflow. Top quality construction, remarkable ease of operation and versatility combine for a machine that consistently outperforms the competition. Dual lift-off recovery buckets with no hose

Quick-fit accessories

to detach allow easy emptying. Maintenance is a breeze as well—just remove two screws and open like a clamshell for quick internal access.

New optional valve allows you to adjust the performance of the machine for regular maintenance or heavy-duty restorative cleaning.

FEATURES

- Large wheels, adjustable handle and lightweight construction team up for easy handling and storage.
- Optional accessories quickly attach to the rear of machine for cleaning stairs, upholstery, etc.
- Patented dual lift-off recovery buckets provide quick and convenient emptying.
- Patented four-wheel design for balance and reduced turning radius.
- High speed brush motor and brush guarantee powerful agitation to release deeply embedded soil and grit, extending carpet life.
- Patented brush system utilizes fully sealed stainless steel ball bearings for years of trouble-free operation.

OPTIONAL ACCESSORIES

- 1204ACH Powermate—12" wide power brush
- D02359-1 Adapter to connect standard 1½" diameter hose assemblies
- 358AC Upholstery cleaning kit—upholstery tool, vacuum and solution hose assembly and hose bag
- 323ACH Prespray wand

SUPERNOVA

There is literally nothing like the Supernova series—remarkable self-contained extractors that clean in both forward and reverse! The patented two-way system provides unparalleled productivity in any setting—clean up to 4,000 square feet in one hour. All models operate forward in hallways

Optional accessories for versatile cleaning

and other open areas, but with a simple pull of a lever instantly change to reverse to clean corners and other tight areas for a dramatic reduction in labor costs. A specially designed vacuum head allows cleaning on hard floors in addition to carpets, without any cumbersome attachments. Just walk off carpet on to hard floors—it's that simple. Dual vacuum motors and a 19" cleaning width on the 800 and 1200 models combine with a host of other exclusive features to guarantee unrivaled performance.

BRAVO SPOTTER

AVAILABLE WITH HEAT!

The new Bravo spotter delivers incredible efficiency and power in a deceptively small package. No set up time—simply unload and begin cleaning immediately. Compact size and maneuverability make it ideal for spotting and quick cleaning of small carpeted areas, upholstery and auto interiors. Operators will appreciate the specially designed molded-in holders that carry spray bottles, leaving the hands free.

Porthole allows easy access to recovery tank

Over time it's a winner too, thanks to the upright-mounted vacuum motor and oversized recovery tank that combine to insure longer motor life.

FEATURES

- Optional in-tank heater delivers 150-degree heat. (339MH-HT)
- Unique molded-in holders carry spray bottles for greater ease.
- Large six-inch wheels and an optional transport handle plus cord wrap assembly make it a snap to wheel about.
- Quickly opens up for easy servicing and repair.
- Large porthole on recovery tank allows easy access for odor-free maintenance.

OPTIONAL ACCESSORIES

330ACS	10" single-jet wand
334ACH	10" hard-floor squeegee wand
1204ACH	Powermate – 12" wide power brush
323ACH	Prespray wand
342AC	8-ft. hose assembly with quick connects
343AC	8-ft. high pressure hose assembly with quick connects
1040AC	15-ft. hose assembly
1039AC	Stainless steel upholstery tool
1037AC	Upholstery tool, durable plastic head

For our full line of optional accessories (1½" diameter), see pages 15-20.

WARRANTY

Lifetime on rotationally-molded housing, 2 years on parts and labor

Bravo with heat: Lifetime on rotationally-molded housing, 1 year on parts and labor

GALAXY **HEAT READY!**

Introducing our exclusive line-up of Galaxy carpet extractors that now comes “heat-ready.” Life’s little decisions just got a whole lot easier! You can purchase any Galaxy without heat and if you change your mind, no problem. Simply order our external heater, and away you go. Placing the heater on the outside also insures that everything on the inside of the machine runs cooler, extending the life of the vacuum and pump motors. The stainless steel heater tank is guaranteed for life. If a repair is necessary, simply lift the heater off the back of the machine. Meantime, you can continue to use the unit without heat.

From a seller’s standpoint, there’s no need to purchase both heated and non-heated units—just stock machines and heaters. Your customers can start with a non-heated model then later upgrade to heat without having to purchase a whole new machine.

SPECIFICATIONS

Solution Tank	12 gallon
Recovery Tank	11 gallon
Solution Pressure	100/150/200/500 psi
Vacuum Motors	Dual high-performance 2-stage and 3-stage

GALAXY PRO

HEAT READY!

This is the big brother to our popular Galaxy series with a large 17-gallon capacity housed within an extremely portable unit that's affordably priced. The "heat-ready" Galaxy Pro includes all the great features of our standard Galaxy model with the added benefits of an optional adjustable 500 psi and the ability to clean extremely large areas quickly and professionally. Versatility is the name of the game with the heat-ready system. You can purchase the machine without heat and later decide to add heat without having to buy a new unit. The external heater makes repairs a snap, and it keeps the heat away from the internal components, extending the life of the machine. All units are available "heat ready."

Optional external heater for Galaxy and Galaxy Pro

GALAXY 5 NOW AVAILABLE HEAT READY!

One look at our new compact addition to the Galaxy series and you'll realize that it is possible to have your cake and eat it too! The Galaxy 5 was designed for remarkable heat and power all housed within an incredibly lightweight and portable package. The Galaxy 5 is an obvious choice for auto detailing and for those jobs where a small yet powerful unit makes more sense. It's light enough for anyone to handle and the fold-down handle makes it a snap to transport and store. We've also added an exclusive baffle system for exceptionally quiet operation. The new optional external heater can be removed in seconds if a repair is necessary, and the stainless steel heating element is guaranteed for life.

Optional external heater

SPECIFICATIONS

Tank Construction	Polyethylene
Baseplate	Aluminum
Rear Wheels	7 inches, non-marking
Casters	2.5 inches
Power Cord	25 ft. detachable
Hose Assembly	15 ft.
Dimensions	28"H x 24.5"L x 16"W
Weight	57 lbs.
Shipping Weight	65 lbs.
Ship Dimensions	30"H x 25.5"L x 17"W

WARRANTY

Lifetime on rotationally-molded housing,
2 years on parts and labor

FEATURES

- External heater is a snap to remove and keeps heat away from the inside of the machine for longer life.
- "No drip" motor cavity guarantees water spilled on outside of machine stays out!
- Opens quickly like a clamshell for fast and easy servicing.
- Upright-mounted motors along with a special intercooler guarantee long life and durability.
- Full complement of optional accessories attaches to the back of unit for cleaning upholstery, stairs, etc.
- Silencer system for quieter operation.
- Handle folds down for easy transport and compact storage.
- Optional heating system delivers consistent 170 degrees.

OPTIONAL ACCESSORIES

1204ACH	Powermate – 12" wide power brush
330ACS	10" Stainless steel wand
1038AC	Crevice tool
1039AC	Stainless steel upholstery tool
323ACH	Prespray wand

MODELS

500BX	3-stage vac, 100 psi, not heat ready
500BX-HR	100 psi, heat ready

POWERMATE

1204ACH

Why use a standard wand when you can get a combination of powerful brush agitation and speed in a super lightweight attachment with wheels—all at a bargain

price! So lightweight and maneuverable, the Powermate will triple your productivity. No more backaches and fatigue from slow, tedious cleaning with a wand.

The Powermate attaches to any portable unit to remove deeply imbedded soil and grit at record speed! A high-speed cylindrical brush gets down to the base of the carpet fibers for more effective cleaning. Available with 1½” diameter handle. For use up to 500 psi. Order factory installed part number 00206-1A receptacle with your EDIC extractor to have the ability to plug the power cord from your Powermate directly into your machine instead of an outlet.

FEATURES

- Weighs only 15 lbs.
- See-through front cover.
- Sealed, stainless steel ball bearings.
- High-speed 2500 RPM brush for deep cleaning.
- Heavy-duty aluminum handle.
- Adapts to all EDIC extractors.

OPTIONAL ACCESSORIES

- B00216 Adapter to plug Powermate into standard wall outlet
- 00206-1A Receptacle, power wand (factory installed)

MODELS

- 1204ACH 12” wide power brush, 1.5” handle diameter, up to 500 psi
- 1800AC-200 18” wide power brush, 1.5” or 2” handle diameter, up to 500 psi

1800AC-200

The ultimate in speed and power for a deep down clean! Powermate 1800AC attaches to any portable or truckmount extractor for cleaning tough, dirty high-traffic areas. An 18” wide cleaning path and high-speed brush save valuable time and reduce operator fatigue. The power brush is designed to clean right up to baseboards and into corners. Its fully adjustable handle fits any size operator and the low profile makes it a breeze to get under furniture. For use up to 500 psi. Now available in 2” to adapt to most truck-mount units.

FEATURES

- 0-90 degree adjustable handle plus fingertip controls for easy handling.
- High-speed chevron-style brush for deep cleaning.
- See-through sight glass to monitor recovery.
- Heavy-duty steel handle.
- Adapts to all EDIC extractors.
- 5 Spray tips.

SPECIFICATIONS

Weight:	8 lbs.
Shipping Weight:	11 lbs.
Ship Dimensions:	65”H x 12”L x 13”W

Traditional Hose Assemblies

Available with choice of standard or high heat, high pressure models. Lengths from 10’– 50’. 1½” or 1¼” hose cuffs. Complete with fittings, see page 39.

Connector—Model # J00630

Allows you to quickly connect two hose assemblies together for extra length, see page 39.

Easy Mop

Bucketless Floor Cleaning System

The Easy Mop is a self-contained dispensing mop system that cleans floors, ceilings and walls with no spills, no mess. A zero-gravity trigger-action sprayer with an adjustable nozzle makes it easy to clean up the sides of walls and even ceilings, and get into corners and tight spaces. The Easy Mop is designed to work in tandem with green chemicals and requires much less chemical than a standard mop.

FEATURES

- Pressurized reservoir—cleans up to 3,200 sq. feet per filling.
- Easy-grip activator is ergonomically sound and activates solution with a slight downward movement, reducing operator fatigue.
- Non-shrinking microfiber pile mop provides increased absorbency and can be laundered over 500 times before replacement.

MODEL/ACCESSORIES

4000EM	Easy Mop
4500GG	Microfiber Pad (Green/Green)
4500GW	Microfiber Pad (Green/White)

Cast aluminum with black powder-coat upholstery tool with see-through window, enclosed spray chamber, and 3-ft. pigtail. Recirculating notches decrease water build-up in spray chamber for faster drying time. High pressure available.

MODELS

 Weight: 3 lbs. Ship Wt: 5 lbs.

AVIATOR

Axial Fan

Superior performance, design and engineering makes our new axial fan the most efficient in the industry, providing more CFM with a lower amp draw. Use our large-sized blower to tackle even the toughest water damage restoration and carpet drying jobs in a hurry. With an amazing velocity of 3000 CFM at a super-low 2.3 amps, the Aviator literally blows away the competition! The bottom line is a much faster drying time which puts more money in your pocket. A built-in GFCI outlet means you can link together multiple units using only one 15-amp circuit for the really big jobs. Plus the dual-direction airflow and choice of drying positions make it extremely versatile. The Aviator axial fan is uniquely designed with 360-degree stacking for easy loading and storage. It's lightweight with an ergonomically-designed handle and convenient cord wrap for easy transport and maneuvering. Comes complete with an hour meter to monitor usage.

Built-in GFCI outlet for linking multiple units on a single circuit

Aviator with wheels

Easy and secure 360-degree stacking of units

SPECIFICATIONS

Housing	Roto-molded polyethylene
Motor	1/4 HP
Speeds	2
Power	120 volts
Electric Draw	2.3 amps
Impeller	16.5" diameter
Stackable	Yes
Power Cord	25 ft. yellow safety cord
Weight	29 lbs.
Shipping Weight	36 lbs.
Dimensions	20.5"H x 20.5"L x 16"W
Ship Dimensions	21"H x 21"L x 16"W

WARRANTY

Lifetime on rotationally-molded housing,
2 years on parts and labor

FEATURES

- The most powerful blower in its class with a velocity of 3000 CFM.
- Built-in GFCI outlet makes it easy to daisy-chain multiple units on a single 15-amp circuit.
- Hour meter monitors usage.
- Exclusive 360-degree frame allows for easy stacking of units.
- Circuit breaker protects air mover and attached devices.
- Durable polyethylene housing in granite color that retains its brand-new appearance.
- Available in a low 2.3 amps.

AQUA DRI

Portable Air Mover/Carpet Dryer

EDIC's Aqua Dri hosts a series of exclusive features that put it far ahead of the pack and make it indispensable for quick drying of carpet and hard floors. The Aqua Dri's unique body design makes it super easy to stack for storage or transport. There are two models to choose from: The standard unit offers three-speed drying with a $\frac{1}{2}$ HP motor and 2400 CFM. The larger Aqua Dri Pro offers three-speed drying with $\frac{1}{2}$ HP (2700 CFM) for the ultimate in power. Both models can be easily adjusted to four different positions for drying carpets, furniture, curtains, ceilings—you name it! Available with optional carpet clamp.

Accordion hose attachment for attics and other hard-to-reach places

Optional carpet clamp

FEATURES

- Exclusive hi-tech design makes it the most versatile, compact and portable air mover in the industry.
- Heavy-duty housing is made of durable roto-molded polyethylene
- Balanced carry-along handle distributes weight evenly for superior portability.
- Easy to store or stack for transport.
- Thermally protected motor.

OPTIONAL ACCESSORY

- 13168A Accordion hose attachment
Length: 15 ft. Diameter: 10 in.
- Tightening belt allows hose to attach to the nose of the Aqua Dri to allow reach into tight spaces such as vents, attics, and other hard to reach areas.
Yellow with black fabric wear strip.

EXTERNAL HEATER SYSTEM

A revolutionary new way to clean with heat!

The EDIC external heater system is the only one of its kind.

- Our exclusive “heat ready” system, available on the Galaxy, Galaxy Pro, and select Galaxy 5 models, gives you the option of purchasing a machine without heat and then adding the heater at any time.
- Ours is the only detachable heater on the market that mounts on the outside, taking only seconds to attach or remove. Placing the heater on the outside has another advantage – it ensures everything on the inside of the machine runs cooler, thereby extending the life of the pump and motors.
- The stainless steel tank and heating element eliminate galvanic corrosion and clogs in the solution flow that can obstruct heat transfer.
- This system really heats up fast, delivering 210 degrees of heat in about 90 seconds. If a repair is necessary, just lift the heater off the back of the machine. It’s that simple!

Our entire line of heated extractors has the heater system mounted on the outside for greater longevity and ease of repair.

SPECIFICATIONS

Pressure	Up to 1300 psi
Tank Construction	Stainless steel
Shipping Dimensions	8¼”H x 24”L x 8¼”W
Power Cord	50 ft. detachable
Electric Draw	14.2 amps

WARRANTY

Lifetime on stainless tank and rotationally-molded housing, 2 years on parts and labor

MODELS

- 602HR 1000-watt replacement heater for Galaxy series automotive units

CIRCUIT LOCATOR

MODEL: 988CS- with 1 wall outlet plug and one twist-lock to fit EDIC equipment

MODEL: 989CS- with 2 wall outlet plugs

So you’ve got two power cords and you need to find outlets on different circuits? No problem! Just plug the circuit locator with an extension cord into two wall outlets – the sensor instantly lights up when it’s good to go. Use it anytime for any equipment. Prevents potential power overload by taking the guesswork out of locating circuits.

GALAXY AUTOMOTIVE

COMES STANDARD WITH HEAT!

Nothing beats these machines for getting at deeply imbedded dirt and grime in auto upholstery and carpet and removing it for good! The winning combination is lots of heat plus high-performance vacuums for squeaky-clean interiors and faster drying time. Our automotive model is a single-cord unit with a powerful yet low amp 3-stage vacuum. Our Galaxy Automotive comes standard with our exclusive Heat 'N' Run external heater that makes repairs a snap and keeps heat away from the motor chamber, extending the life of the internal parts. The heater can be removed in about 15 seconds if need be, and the unit cleans with or without heat. The Galaxy Automotive is a large 12 gallon capacity inside a compact body for exceptional portability. Comes complete with a vacuum and solution hose assembly designed specifically for automotive detailing and a stainless steel auto-detailing tool.

FEATURES

- 1000 watt in-line external heater delivering up to 170 degrees in just 90 seconds.
- Durable stainless steel heating chamber and heating element.
- Exclusive external heating system for easy removal and repair.
- External heater design removes heat from the motor compartment keeping the vacuum motors and pump running cooler.
- Opens quickly like a clamshell for easy servicing.
- Powerful and lightweight – ideal for single operators.
- “No drip” motor cavity guarantees water spilled on the outside of machine stays outside and won’t accumulate in the motor compartment.

OPTIONAL ACCESSORIES

- 1038AC Stainless steel crevice tool
- 1035AC Stainless steel van tool

GALAXY 5

COMES STANDARD WITH HEAT!

The Galaxy 5 was designed for remarkable heat and power all housed within an incredibly lightweight and portable package. The exclusive external heater design, with stainless steel heating chamber and heating element, delivers up to 170 degrees on demand. The unit can be operated on a single power cord, which gives it the versatility to be used in a variety of settings. The heater can be removed in about 15 seconds if a repair is necessary, and the stainless steel heating chamber comes with a lifetime guarantee. The Galaxy 5 is an obvious choice for auto detailing and those jobs where a small yet powerful unit makes more sense. It's light enough for anyone to handle and the fold-down handle makes it a snap to transport and store. We've also added an exclusive baffle system for exceptionally quiet operation. The Galaxy 5 automotive unit comes complete with a vacuum and solution hose assembly designed specifically for automotive detailing and a stainless steel auto-detailing tool.

BRAVO SPOTTER

WITH HEAT!

The new 17-pound Bravo spotter delivers incredible efficiency and power in a deceptively small package. No set up time—simply unload and begin cleaning immediately. Compact size and maneuverability make it ideal for spotting and quick cleaning of small carpeted areas, upholstery and auto interiors. Operators will appreciate the specially designed molded-in holders that carry spray bottles, leaving the hands free. Over time it's a winner too, thanks to the upright-mounted vacuum motor and oversized recovery tank that combine to insure longer motor life. The Bravo automotive unit comes complete with a vacuum and solution hose assembly and a stainless steel auto-detailing tool.

SPECIFICATIONS

ATLAS (patents pending)

After years of careful planning, our new Atlas is taking the back-pack vacuum market by storm. Feature for feature, it simply defies the competition! It's light enough for anyone to handle and the ergonomically-designed Velcro straps at the chest and hips result in a comfortable fit for virtually any sized operator. A special slide adjustment hooks the shoulder straps together for a higher range of motion. The on/off switch is at the hip level and mounted on top for unparalleled ease of operation. Our unique airflow design makes this unit quieter than most and the baffled exhaust goes out the back, away from the operator, for a higher level of comfort. The Atlas comes with our extraordinary Ultrastat™ 3-ply composite filter treated with an anti-microbial

agent that provides exceptional airflow even when full, allowing for greater productivity. This exclusive bag is fitted with a durable plastic rim for an airtight seal around the top, and the seams are sonically welded (as opposed to glued). The result is higher dust retention, and a much longer filtration cycle.

FEATURES

- Longer exhaust chamber and diffused exhaust air for quiet operation.
- EDIC Ultrastat™ filters have better filtration efficiency, greater dust retention and longer useful life than Micro filter bags because Ultrastat's™ revolutionary synthetic material allows greater air flow even when the bag is full.
- 3-position hip adjustment for wider or narrower hips allows the unit to sit more comfortably on the hips.
- Ergonomically designed harness with multi-adjustable settings for optimum comfort.
- Lightweight – only 10 lbs.
- Hip-mounted switch results in easy on/off.
- Precision-molded cloth filter bag rim holds it's shape to prevent collapsing inside the unit when the bag is full.
- Optional HEPA filter available on 10-qt units.
- Available in 220-volt.

SIDEWINDER KIT

364AC Kit includes 14" scalloped carpet tool, crevice tool, dust brush, 2-pc aluminum straight wand, and upholstery tool.

INDUSTRIAL KIT

365AC Kit includes combo floor tool, telescopic wand, curved wand handle, crevice tool, dust brush, 5" upholstery tool and slide-on brush for upholstery tool.

FILTERS

The revolutionary new Ultrastat™ filters are made from a high-efficiency synthetic composite treated with an anti-microbial agent. They have greater dust retention, better filtration efficiency and a longer useful life than a standard microfilter because they provide a much lower pressure

drop and therefore better CFM for longer periods of time. The Ultrastat™ filters are more durably constructed because the seams are sonically welded, as opposed to glued, and the rim is made from a durable plastic instead of cardboard.

DYNAMO

CANISTER VACUUM SERIES

6W/9W

The Dynamo Canister is a go-anywhere, do-anything vacuum with revolutionary features that take practicality to a new level. Need HEPA filtration? You got it! Need the noise level to be so quiet workers can make phone calls without being disturbed? You got it! Want one vacuum

for multiple jobs? You got it! Each model has its own unique features with versatility and ease at the core. Both vacuums incorporate a unique, color-coded filtration system that makes it simple to change from high filtration to HEPA or even to ULPA depending on the job.

SPECIFICATIONS

	6W/9W
Capacity	6/9 quarts
Motor	1050/1200 watts
CFM	105
Water Lift	100 inches
Electrical Draw	9/10.5 amps
Noise Level	62/59 decibels
Filtration	High/HEPA/ULPA

Hose	8.5 ft.
Wheels	3", non-marking
Casters	2", non-marking
Switch guard	Yes
Tool kit	7-piece included
Tool Diameter	1.25 inches
Ship Dimensions	22.5"H x 16"L x 16"W
Weight	14/14.5 lbs.
Shipping Weight w/tools	23.5/24.5 lbs.
Safety Approval	UL/CSA

6W

9W

We recommend the 6-quart Dynamo for your everyday cleaning needs, providing durability and economy over the long haul. The 6W comes with a lifetime internal filter, which results in a dramatic reduction in long-term costs.

With its whisper-quiet decibel rating and remarkable filtration system, the 9W is the professional choice for use in healthcare environments and busy call centers. It features a double system of color-coded filters that give you the option of true high filtration, HEPA or ULPA filtration. An EDIC exclusive feature on the 9W allows you to switch the noise level down to a minimum, making it possible to vacuum even while employees use the phone.

The Dynamo canister vacuum series delivers total ease of operation and maintenance. A special indicator light lets you know immediately if the cord or the outlet is defective. The 50-foot power cord is detachable and the motor slides out for quick repairs. Filters can be swapped out in seconds to meet individual job requirements. Each unit comes complete with a standard 3-stage filter set and a 7-piece tool kit.

OPTIONAL ACCESSORIES

- L13126 Paper filter bags, 6W, 10-pack
- L13127 Paper filter bags, 9W, 10-pack

DYNAMO

CANISTER VACUUM SERIES

6W/9W FEATURES

- Units can be turned on their side with the hose facing up for cleaning hard-to-reach places.
- Unique indicator light lets you know if the power cord or the outlet is defective for easy troubleshooting.
- Telescoping wand makes it easy to clean high ceilings and walls.
- Switch guard protects the unit from foot operation.
- Removable filters make it easy to switch from high filtration to HEPA or ULPA depending on the job.
- Motor slides out and power cord is detachable for inexpensive, on-the-spot repairs.
- Exclusive lifetime internal filter on the 6W dramatically reduces long-term costs.
- Super low decibel rating on the 9W (59 decibels) plus exclusive noise reduction switch for cleaning during regular work hours, even if someone is on the phone.
- Special modular design with weight centered in the middle prevents unit from tipping over.

FILTRATION SYSTEM

Our unique 3-stage filter system is designed for complete flexibility, allowing you to choose the level of filtration to meet individual job requirements. The system includes a paper dust bag, the internal filter and a cartridge blow out filter.

- High Filtration—99% of all dust particles up to 3 microns including sand, dust mites, pollen, mite feces.
- HEPA Filtration—99.997% filtration at .3 microns including all of the above plus red blood cells, bacteria, mite feces dust, yeasts and fungi, tobacco smoke, virus
- ULPA Filtration—99.999% filtration at .1 microns for maximum cleanliness including all of the above plus E. Coli and Staph bacteria.

PAPER FILTERS

Our paper vacuum bags are more than a dust container. They are a vital part of the filtration system. The paper filter can be sealed completely before removing for a truly clean air system.

9W standard filter set

6W standard filter set

DYNAMO WET/DRY VACUUM SERIES

5W

The new Dynamo series of wet/dry vacuums combines a host of impressive features including whisper quiet operation and incredible suction power—at a price that flattens the competition. The 5-gallon model is perfect for small spills and pickups without the need to drag out more cumbersome equipment. This model is compact for easy transport and storage yet powerful enough for heavy-duty commercial settings. A special noise reduction design means you can work anywhere, anytime without causing a disturbance. An optional HEPA filter is available for three-stage filtration. Choice of stainless steel or polyethylene housing.

PILOT AUTOMATIC SCRUBBER

Our amazing new automatic scrubber is ideal for deep cleaning of grouted pavers and hard floors. The Pilot gives you all the performance of larger, more expensive equipment but in a lightweight, compact size that's super easy to operate and store. At only 30 lbs, it's simple to transport to any job site. The Pilot's versatility makes it perfect for routine maintenance or periodic deep cleaning, especially in tight, obstructed areas such as restrooms or locker rooms.

The knockout punch of this machine is its rotary brushes. It features a pair of high-speed counter-rotating circular nylon brushes with two levels of bristles that deep-clean grout better than any cylindrical method. The flexing action of the flared nylon bristles scrubs the most difficult-to-clean mosaic tile and stone grouted floors with truly amazing results. Superior urethane squeegee blades allow one-pass cleaning or can be raised to double scrub for restorative cleaning.

The Pilot is the perfect green machine where less is more! It does not require harsh detergents that can damage sensitive stone and grout surfaces. It uses less solution, works in tandem with green chemicals and with its single motor, draws less amps.

EDIC's Pilot is user friendly and simple to operate and maintain. The recovery bucket, tank, brushes, squeegee and power cord can be taken apart in seconds to switch to other accessories. Optional nylo-grit brushes and pad holders can be attached for surface polishing and stripping of any hard surface.

SPECIFICATIONS

Brush Motor	120V, 700 watts
Vacuum Motor	Triple fan system
Cleaning Width	14 inches
Cleaning Capacity	4,200 sq. ft. per hour
Squeegee	16 inches
Brushes (2)	Circular/nylon bristles
Brush Speed	550 RPM
Brush Pressure	18 lbs.
Solution Tank	1 gallon
Recovery Tank	1 gallon
Wheels (2)	4", non-marking
Power Cord	25 ft. detachable, 3 ft. pigtail
Dimensions (Upright)	43.75"H x 20"L x 16"W
Weight	30 lbs.
Shipping Weight	33 lbs.
Ship Dimensions	16"H x 23"L x 16.5"W
Electrical Draw	4.5 amps, 115V

FEATURES

- Unique dual counter-spinning rotary brushes (not cylindrical) with two levels of bristles for a deep down clean that outperforms the competition.
- Unbeatable performance in a compact size—only 30 lbs!
- Does the job of heavier, more expensive equipment but can be stored in a closet and is super easy to maneuver. It even fits on a maid's cart.
- Low carbon footprint—cleans with green chemicals, uses less solution and draws less power.
- Truly automatic—simply lower the handle to activate—no on/off switch!
- Comes complete with a high-quality squeegee that leaves floors clean and completely dry.
- A total cleaning system that promotes clean and sanitized stone, tile and hard floors.

OPTIONAL ACCESSORIES

NEW COMPANION PRODUCT!

Easy Mop bucketless cleaning system—cleans walls, ceilings, and other hard-to-reach places with no spills, no mess. A pressurized all-inclusive reservoir cleans up to 3,200 sq. ft. per filling. See page 16 for additional details.

SATURN

LOW SPEED FLOOR MACHINES

No job is too tough for this rugged series of floor machines from EDIC. With its all-metal construction and steel planetary gear boxes, the Saturn can stand up to the heaviest workloads, yet the ride is surprisingly smooth and quiet. The low speed models are built specifically to handle the stress associated with stripping and scrubbing hard floor surfaces as well as bonnet cleaning and shampooing carpets. Features like the quick and easy handle adjustment, anti-fatigue design, and the exclusive “lockout lever” for safe two-handed start up make this machine operator friendly and a winner in every commercial setting. Available in 4 different sizes, there is a perfect low speed Saturn for any size job.

FEATURES

- All-metal construction assures durability.
- All-steel triple planetary gearbox provides heavy duty yet quiet operation.
- Dual-trigger negative pressure switch allows operator to run with either hand.
- Turn a 13-inch machine into a 20” or any other combination, by removing just four bolts.
- Exclusive “lockout lever” is designed so operator can safely activate motor with both hands on the grips.
- Wide-gripping handle locking mechanism guarantees a tight lock and smooth adjustment.
- Non-marking PVC bumper prevents marks on walls and furniture.

OPTIONAL ACCESSORIES

- 390AC Shampoo tank for carpets
 - 1601BR/1901BR Pad driver with molded-in clutch plate
 - 1603BR/1903BR Two-piece pad driver
- For a complete listing of pad drivers, brushes and accessories, see page 39

SATURN HIGH SPEED

BURNISHERS

Available in traditional style or new 17" compact design with fold-down handle!

The Saturn burnishers make it simple to bring a smooth, super high-gloss luster to any hard floor surface. Watching these machines in action will make anyone a believer! The perfect combination of weight and high speed produces a spectacular finish in record time. Brand new to the line-up is a 17" 2000 RPM model with a fold-down handle and a special compressed design for the ultimate in portability and storage plus greater maneuverability in tight spaces. Our traditional 20" models are available in 1500 or

2000 RPM and both the traditional and fold-down models are designed with an all-metal construction including stainless steel brush cover, making them as durable as they are dependable. All models come complete with flex-lock pad driver and high-speed pad.

SATURN

DUAL SPEED FLOOR MACHINES

Get more bang for your buck with one machine that does the work of two! Strip, scrub, spray-buff, polish, shampoo, bonnet clean... you name it, this machine does it all! Designed for professional floor care maintenance, the dual speed floor machines from EDIC are equipped with long-wearing steel triple planetary gearboxes, providing heavy duty yet quiet operation. Safety comes first with the exclusive “lockout” lever that allows the motor to be activated while keeping both hands on the handle grips. Use the lower speed to scrub and strip then just flip the switch to high speed and polish floors to a glossy luster. Operation is smooth and easy in even the toughest commercial settings.

FEATURES

- All-metal construction with stainless steel brush cover, heavy duty chrome-plated steel handle and 66 frame motor assure durability.
- All steel triple planetary gearbox provides heavy duty yet quiet operation.
- Turn a 17-inch machine into a 20” machine, or vice versa, by removing just four bolts.
- Dual trigger negative pressure switch allows operator to run with either hand.
- Safe two-handed start-up with exclusive “lockout lever”.
- Cool running 1.5 HP high efficiency motor.
- 50-foot power cord.
- Non-marking PVC bumper prevents marks on walls and furniture.
- Available in 17” or 20” diameter.

OPTIONAL ACCESSORIES

- 1601/1901BR Pad driver, with molded-in clutch plate
- 1603/1903BR Two-piece pad driver

RENTAL PROGRAM

Whether you want to get your own private carpet care rental business up and running or you're looking for a good way to boost the sales of your existing business, the EDIC rental program makes it easy. Our complete rental package is perfect for janitor supply houses, vacuum dealerships, rental yards, hardware stores or any other business with walk-in traffic. We provide you with state-of-the-art rental equipment, professionally-formulated cleaning solutions, instructions for home use, and advertising and marketing materials. If you're just starting out in the carpet care business, this is perfect for consignment to stores or delivery to homes. For the retail business owner, just set up the rental package in your store or warehouse and watch your sales grow. At the heart of the program is EDIC's amazing FiveStar extractor, offering powerful cleaning capabilities in a compact unit that's light enough for anyone to handle. Choose from our complete package or build your own package to best suit your needs.
