

Waterless or Water... You Choose!

WATERLESS HYBRID URINAL®

HYBRID URINAL® WITH OPTIONAL VALVE

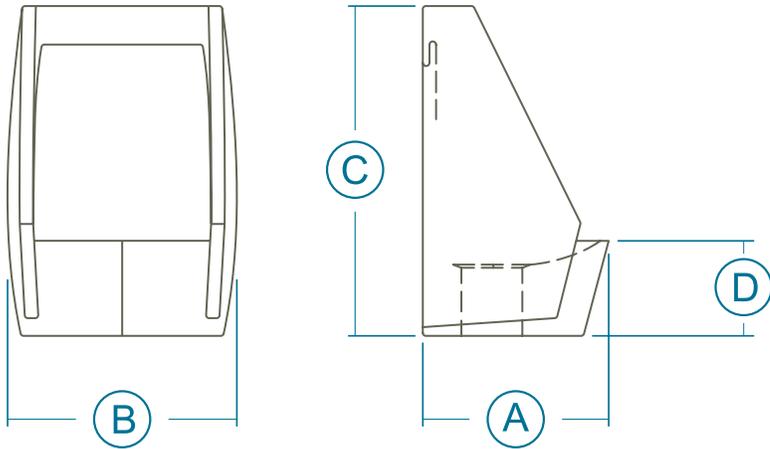

- Significant reduction in water & sewer costs
- Reduction of maintenance & custodial costs
- Reduces restroom odors
- Provides more hygienic restroom
- Double-sealed cartridge uses no chemicals and allows for water to be flushed through the system without cartridge removal
- Vitreous china bowl with uni-bracket wall mounting

- World's first self-rinsing waterless urinal
- Programmable one-pint valve rinses the urinal based upon number of uses or at timed intervals during a 24 hour period
- 12.5 ounces (0.5 liters) per rinse
- Valve may be included with initial installation or added after install

hybridH2O dual use urinal fixture is the first product to integrate waterless and traditional valve technologies. In doing so, hybridH2O offers a line of urinals that provide the water efficiency of other waterless urinals while also offering the rinsing benefits of traditional valve urinals. This revolutionary waterless urinal system integrates an optional 1-pint valve programmed to automatically activate at designed intervals, adjustable for the specific application. By integrating the ability to rinse the urinal with water, hybridH2O urinals combine waterless & ultra low flow valve technology. The fixture may be used with or without the valve.

General Specifications

 Meets American Disabilities Act guidelines.

DIMENSIONS				
	A	B	C	D
HS - 20	13.5" (343mm)	13.25" (337mm)	20.4" (518mm)	7.9" (200mm)
HM - 25	14.75" (375mm)	15.5" (394mm)	24" (610mm)	8.5" (216mm)
HL - 28	15.7" (397mm)	19.25" (489mm)	27.75" (705mm)	8.5" (216mm)

Designed to connect to 16" (407mm) floor to center-line drain. For ADA install, 9" (229mm)

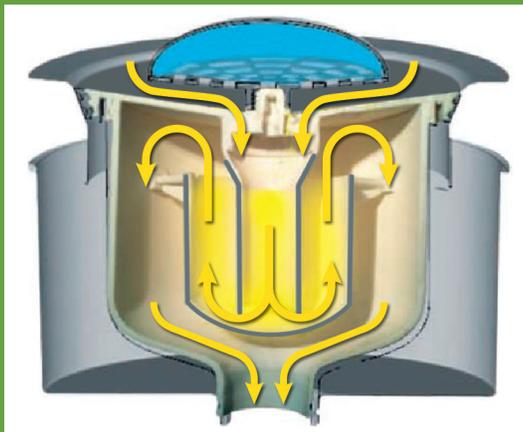

Suitable reinforcement for all wall supports required.

Installation with copper drain line, waste & vent systems not recommended.

Dimensions are for informational purposes only and may vary within range of tolerance established by ANSI Standards. Subject to change without notice.

Simply... A Smarter Design

Low-cost, efficient
 hybridH₂O cartridge

■ Dome ■ Urine ■ Cartridge

Feature

- Hybrid Technology
- Pint Valve
- Uni-Bracket
- hybridH₂O Trap

Benefit

- Waterless urinal with optional, programmable valve
- Manufactured by industry leader
- Easy to install
- No sealant required, No special cleaners, No additional maintenance training

Unique & Innovative

The highly-efficient trap maintains a proper seal without the use of costly sealant.

The **trap dome** activates deodorizing fragrance with every use and releases natural surfactants into the trap.

Looks great, works great as part of your overall waterless urinal system.
