

May 5, 2025

Dear Valued Customer,

Due to newly implemented U.S. government tariffs on imported goods, Fineline will be adjusting pricing effective **June 6, 2025**, as follows:

- **Imported Products:** 14% price increase
- **U.S.-Manufactured Products:** 5% price increase
- **Custom Print & Direct Container Orders:** New pricing takes effect immediately
- **Contracted Business:** Adjustments will follow the terms outlined in your agreement
- **Order Limits:** To ensure fair distribution, order quantities will be capped at 105% of historical averages

We are actively working to mitigate the impact of these tariffs by expanding our global manufacturing footprint—especially outside of China—and by seeking efficiencies throughout our supply chain.

We sincerely appreciate your continued trust and partnership. Fineline remains committed to delivering high-quality products and outstanding service. Should you have any questions, please don't hesitate to contact us.

Sincerely,

Rob Kirby
Vice President of Sales
Fineline Settings
