

CLEANING PRODUCTS GROUP
Scrubble® - ETC - Treleoni® - International

September 26, 2022

Dear Valued Customer,

As with all companies, ACS has worked tirelessly this past year to mitigate the effects of historic, across the board inflation on its customers. Unfortunately, inflation remains rampant and increases in materials, energy, labor, transportation, packaging and services have irreparably changed the cost of doing business.

As such, ACS is implementing a modest 5% increase effective January 1, 2023. ACS will continue to absorb the large portion of these realized cost increases to mitigate the impact to our customers.

Detailed pricing is available to you via your ACS sales representative. Supporting data is provided here for your reference.

We appreciate you understanding and thank you for your business and continued support.

Best regards,

Rory Beaudette
Chief Operating Officer
