Re: Price Increase

Dear Customer,

In order for Accurate to continue to provide the very best products and services that our industry has to offer, we will be implementing a 3% price increase on our entire product offering. The continued rise in our cost to manufacture makes this modest increase necessary. We are confident that this small increase in our line will have little to no negative impact on our mutual customers and their operations. We will continue to work very hard to bring value to our partnership and be a strong enhancement to your overall value proposition to your current and future customers.

This increase will go into effect on 12/1/18. Any orders placed prior to 12/1/18 will be honored at your current price schedule.

On behalf of the entire Accurate Team, thank you for your continued support and partnership.

Sincerely,

Bradley Zall

President
