

April 4, 2025

Dear Dine-Aglow Diablo Customer:

RE: Reciprocal Tariff Executive Order

I hope this notice finds you well. As a 60-year-old US manufacturer, we support “Made in America”, however some items are just not available in the USA. Until then, we are forced to import these items.

Per Wednesday’s (April 2, 2025) Reciprocal Tariff Executive Order, several of our products will be impacted by these new tariffs. Specifically, our steel cans, wick materials, butane products and solid wax candles.

Below is a list of items, Country of Origin and reciprocal tariff amount:

- Solid wax candles – Vietnam = 46%
- Butane products – S. Korea = 25%
- Steel cans – China = 145%

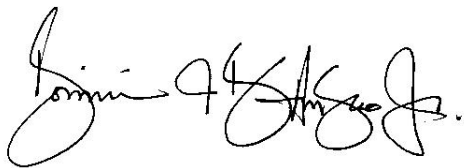

I am hoping over the next few weeks we will see global cooperation and see a considerable reduction in these tariffs. Until then, we are forced to pass on these new increases. We will be sending out revised pricing over the next several days.

On behalf of Dine-Aglow Diablo Food Service Fuels, we appreciate your support and continued cooperation. We are reviewing all options and when the costs begin to decrease, we will certainly pass on these savings.

Any questions please feel free to contact my office at dominic@dadfuels.com, 484-921-9012 or via cell at 610-613-5882.

Cordially:

DINE-AGLOW DIABLO FOOD SERVICE FUELS LLC.
