Re: Upcoming Price Adjustment Due to Recent Tariff Changes

Dear Valued Customer,

We want to keep you informed about an important change affecting vinyl gloves. Due to a 145% import tariff on gloves from China—where approximately 95% of the world's supply is manufactured—significant cost impacts are being felt across the industry.

We will continue to offer nitrile gloves and are also exploring options for synthetic gloves as alternatives. As we work through potential solutions to prevent any supply chain gaps, we will continue to keep you updated.

Please contact your sales representative for updated pricing and availability. If you have any questions, our team is here to help.

Thank you for your continued partnership and understanding.
