

Date: October 18, 2023

Dear Partner,

IPC Eagle is announcing a price adjustment effective January 1st, 2024. Due to continued labor and supply chain inflation, we are having to adjust pricing on certain machine platforms. Fortunately, we've been able to mitigate the inflation and avoid price increases across most of our product line, including parts and consumables.

Price lists will be finalized and communicated by November 1, 2023. Our customer service team will be communicating the new 2024 price list via direct email to our primary purchasing contacts at your organization. If you have any questions or have not received the information you need, please contact your Customer Service Representative or Regional Sales Manager.

Thank you for your continued business & being a valued partner.

Best Regards,

A handwritten signature in black ink, appearing to read "D. Strohsack".

David Strohsack
President, IPC Eagle
