Subject: Price Increase

Due to the ongoing conflict in the Middle East and its impact on global markets, we are experiencing significant increases in the cost of raw materials, international transportation, and packaging materials. As a result, we must implement a price increase of 10–15% on all plastic products, effective immediately.

We understand the challenges this may present and want to assure you that we have made every effort to minimize these increases. However, in order to maintain consistent supply and uphold the quality standards you expect, this adjustment is necessary at this time.

We appreciate your understanding and continued partnership. Thank you for choosing us as your supplier for commercial paper and plastic products. We remain committed to supporting your business with reliable products and competitive service.

Thank you,
