RE: April 1st Price Increase Notification

Dear Valued Customer,

Over the past year, ACS has made every effort to absorb the impact of significant, broad-based inflation to minimize the effect on our customers. Despite these efforts, continued increases in material costs, energy expenses, rent, labor rates, and a significant shift in currency exchange over the last 12 months now make a market-wide price adjustment necessary.

Effective April 1, 2026, a weighted 4.8% price increase will apply to all new orders placed on or after this date.

We greatly appreciate your understanding and continued partnership. Thank you for your ongoing business and support.

Sincerely,

A handwritten signature in blue ink that reads "Robert Sophie".
